# BRUTALLY MURDERED AGED COLORED WOMAN AND BURIED HER BODY IN THE BASEMENT.

## YOUNG NEGRO KILLED THE OLD LADY FOR HER MONEY.

### Awful Death Scene Witnessed in the House.

### Police Are Trying Hard to Locate Victor Walkerez.

BODY OF VICTIM EXUMED AND TAKEN TO THE MORGUE.

The mystery of the disappearance of Mrs. Lizzie Leroy, the aged colored woman of 1090 Stanford avenue, has been revealed. The grave has given up its dead and Mrs. Leroy has been proven the victim of perhaps the most cool, premeditated and cowardly murder that has ever been committed in this community.

**BURIED IN THE BASEMENT.**

The remains of the unfortunate woman, after having slept in secret for nearly a month, despite the unremitting search of detectives and friends were yesterday afternoon found in a roughly dug grave beneath the floor of the basement of the home which she had occupied for many years. The remains were almost doubled, the knees resting upon the breast, the tongue protruding a couple of inches and a ghastly hole in the skull which showed that brutal force had been used in the commission of the crime.

**BRUTALLY STRANGLED.**

Added to this was the fact that a heavy clothes' line was thrise wound tightly around the neck denoting that the remorseless murderer had taken no chances in destroying the life of the victim.

**CONSCIENCE COMPELS CONFESSION.**

The secret would not have been revealed had it not been for the confession of Mrs. Annie Ross, a white woman, a former inmate of Mrs. Leroy's home, who witnessed the slaying and who, hesitatingly accused a mulatto giving the name of Victor Walkerez, who passed as her husband, as the author of the bloody deed. Mrs. Ross is now in the City Prison and detectives of this city, San Francisco, and indeed of the entire State, are endeavoring to locate Walkerez, the principal actor in this abhorrent tragedy.

**CRIME OF INGRATE.**

The object of the murderer was robbery. The crime is all the more abhorrent for the reason that it deprived of life, an aged woman who had thrown open her house to her slayer and his companion with an open-heartedness of the most charitable character.

Penniless and unknown, Walkerez and Mrs. Ross, on a stormy night in January, last, begged for admission to Mrs. Leroy's humble abode. They were admitted and implicit confidence was placed in them by its liberal-hearted owner.

**AN EASY VICTIM.**

The couple saw their hostess was alone in the world and easily imposed on her. Mrs. Leroy was in the habit of doing outside work as a means of making a livelihood, and as a result of her industry and frugality, had acquired a small sum of money, some of which she kept at her home and more of which had deposited in bank.

**CONFIDENCE IN VIPERS.**

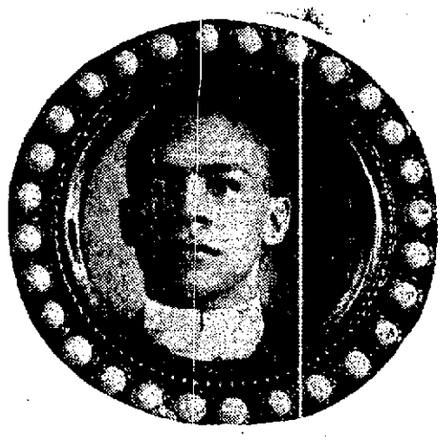
During her absence at labor she suffered from a number of petty thefts which she suspected were committed by a neighbor. For the purpose of preventing this thievery, she hired Mrs. Ross to take care of her house at the rate of $10 a month, at the same time furnishing her with board.

**MURDERER LOAFED.**

Walkerez did nothing save live on the bounty of Mrs. Leroy. Although he put in as an offset for his support the fact that he had secured one paying boarder who was quartered in the Leroy home.

**HANDLED CHARITY FUNDS.**

Mrs. Leroy was also president of the Afro-American Benevolent Society, and as such, was in receipt of money from members which was to be expended in charitable work. On the night of the 5th of last May, after supper, Mrs. Leroy sat at the table in her humble home and beside her were $35 belonging to the society in question, which she had intended to give on the next day to the treasurer of the organization. In the room with her at the time were Mrs. Ross and Victor Walkerez.



VICTOR WALKEREZ, THE FUGITIVE MURDERER.—From a photo in the possession of Chief Hodgkins.

**KNELL OF DEATH.**

The 9 o'clock bell rang and as the sound of the last stroke died away, Walkerez, who had been nervously treading the floor, stepped up to the clock, wound it and set it for the hour. He then reached to a stand where lay a plumber's hammer and with this in his hand walked behind Mrs. Leroy and dealt her a crushing blow on the back of the head, which inflicted a ghastly and fatal wound.

**INSTANT DEATH.**

Death was instantaneous. There was scarcely a sigh. The body fell with a thud on the floor and lay there for a few moments. Walkerez asked Mrs. Ross to help him to carry the remains away, but the woman refused.

**GLOOM OF GRAVE.**

The murderer then dragged the remains downstairs and left them alone with the darkness. Walkerez returned to the scene of the tragedy, wiped a few blood stains from the floor where Mrs. Leroy had fallen and then invited Mrs. Ross to go with him and have a drink of beer.

**DRANK WITH BLOODY HANDS.**

With his hands stained with the blood of a human being, Walkerez took his companion to a saloon on San Pablo avenue, and there indulged in drink until a late hour, when both he and his companion went home and remained during the night in the place which had been despoiled of its owner by this brutal crime.

**LIKE A GHOUL.**

The next morning, Walkerez fearlessly entered the basement, tore up the floor, dug a hole like a ghoul, threw the remains wrapped in blankets into it, filled in earth, relaid the boards, covered them with a carpet and then prepared to face the world with blood on his hands and the secret of a murder in his heart.

**GAZED ON SEPULTURE**

In this demonical sepulture Walkerez had Mrs. Ross as a spectator.

All the earth the murderer had taken out of the grave, could not be put back. The surplus loam was put by the murderer in a tub and a brass kettle and in both of these, Walkerez planted shrubs as Mrs. Leroy was wont to do. This disposal of the earth disarmed suspicion.

**MRS. LEROY MISSING.**

The next day Mrs. Leroy was missed by her friends. The second day she was not found in her accustomed places, and, on the third day, people wondered whither she had gone. Distant relatives sent information to the effect that they had not received a call from the missing woman and then the wonder grew what had become of her.

**CLEWS LEAD NOWHERE.**

The police were notified and the detectives examined the premises and followed clews in the hope of locating the missing woman, but without avail.

**REMORSE EFFECTIVE.**

The mystery, in all probability, would not have been disclosed had it not been for the unexpected confession to which Mrs. Ross was driven by untrollable feeling of remorse. The money which Mrs. Leroy had in her house, some rings, silverware, and other articles of value, were packed up by the murderer and carted away. Soon after the crime Mrs. Ross went to a hospital in San Francisco, and it was there that she last saw the man who had taken the life of their benefactress, and at that time she was robbed by him of $20.

**DUPE SOUGHT REVENGE.**

When she came to the City Hall yesterday and saw Captain Wilson it was for the purpose of asking for a warrant for the arrest of Walkerez for the latter crime. She denounced Walkerez bitterly, and in her denunciation stated vehemently that he was the murderer of Mrs. Leroy.

**CLEW AT LAST.**

Immediately the attention of Chief Hodgkins, Captain Wilson and the detectives were centered in the woman. They listened to her story with the greatest interest, and following their directions went to the deserted home on Stanford avenue and there found the ghastly remains of the slaughtered woman.

**PARAMOUR AND ABETTOR.**

Mrs. Ross is 88 years of age, has a child 8 years old. Her father is dead, but her mother is still living in some part of the East. She is a woman of considerable intelligence and of some education and an approach to refinement. She has, however, followed trying paths and her appearance is far from prepossessing.

**DESPOILER OF LIFE.**

Walkerez, the suspected murderer, is a mulatto, aged about 24 years. He served in the Philippines in Company E, Twenty-fourth Regiment. He is a barber by trade and is said to have been in innumerable quarrels and fights. On one side of his face there is a gunshot wound. On the other side is a large scar that was inflicted by a razor. He is five feet six inches tall and weighs 141 pounds. He was last seen in this city on May 12th by Policeman Thompson.

Mrs. Leroy was about 70 years of age and bore an excellent reputation.

**HAS MRS. LEROY'S CLOTHES.**

There is now in the City Jail a young Octoroon named Hattie Cochrene, who resided at 355 Minnie street, San Francisco, who will be held with the hope of giving some clew to the whereabouts of the missing murderer. In her possession were found some of the wearing apparrel and jewelry belonging to the dead woman. A man named James Downing, who claims to be the husband of Miss Cochrene, has also been apprehended with the same purpose in view.

Chief Hodgkins, the detective force and the patrolmen under him are doing everything in their power to bring the fugitive murderer to justice.

## CLOSE CALL ON HARRISON BRIDGE.

### Big Casting Breaks and Train Has a Narrow Escape.

The breaking of a casting in the lifting apparatus of the Harrison street broad gauge bridge, nearly derailed the 8:15 train from San Francisco this morning and caused a great amount of excitement among the passengers.

The train, however, crossed the structure in safety although some jarring was occasioned when the wheels of the coaches passed from terra firma to the bridge on one side and from the bridge to terra firma on the other. The impact of the train on the south end of the bridge, it is thought, was responsible for the breaking of the casting which was situated on the northern end of the structure. The fracture caused the latter portion of the bridge to settle under the weight of the train so that the trucks had to bump against the higher rails on the north bank of the estuary and also on the southern extremity of the bridge. The train, after crossing the bridge, continued its run to Fourteenth street where it was laid up until shortly after noon when the half-hourly runs were resumed.

The lifting apparatus of the bridge is used to raise the end rails on each side of the structure when it becomes necessary to open the bridge to enable vessels to pass through the draw. When the bridge is closed after having been opened, the apparatus in question allows the rails to drop into a "nest" which forms a close connection with the rail on either bank. These end rails were deprived of their customary support by the fracture and were accordingly somewhat bent by the weight of the coaches and had to be replaced.

## A TWELVE YEARS SENTENCE.

### HAVANA SOCIETY MAN WILL PAY PENALTY FOR MURDER.

NEW YORK, June 5.—August Menondizen, a member of the first families of Havana, has been sentenced, says a Herald dispatch from Havana, to twelve years in prison for the murder of Georgia Altazara, after a quarrel in a cafe.

Altazara was a leader in society and under the administration of Governor-General Wood was practically the master of ceremonies at the palace.

## FOREIGN WHEAT ADMISSION REJECTED.

MADRID, June 5.—The customs commission of the Cortes has rejected by twenty-one votes to three, a proposal for the temporary admission of foreign wheat.

**OPERATION SUCCESSFUL.**

ALAMEDA, June 5.—Miss Edna Wichman, who was operated on yesterday at the Alameda Sanitarium for appendicitis, is reported as doing very well. Miss Wichman is the daughter of Mr. and Mrs. Henry C. Wichman and is popular in Alameda society. She recently took part in the farce given in this city, "Les Tres Chapeaux."

## CONFESSION MADE TO POLICE BY A WHITE WOMAN.

### Mrs. Annie Ross Tells the Awful Story of the Killing and Burial in the Golden Gate House.

The complete confession of Mrs. Annie Ross is as follows:

Office of the Chief of Police, City Hall, Oakland, California, 7 o'clock p. m., June 4, 1903.

Statement of Mrs. Annie Ross made to Captain of Police Peterson, Deputy District Attorney Abe P. Leach and Detectives George Kyte and Dennis Holland.

Captain Peterson (to Mrs. Ross): Now just begin from the beginning and tell these gentlemen how you came there, how you got there, where you came from, and what was done the night the murder was committed; how long you staid there afterwards, when he went away, and just as you told us; what you told me. Commencing from the very beginning and go right through; tell what you did and all about it.

Mrs. Ross—Well, from the very time I came in the place?

Captain Peterson—Yes; tell us where you started from, how you got there; when you went to this house, first now. Where did you come from first?

A.—Lathrop.

Mr. Leach—Just tell your story in your own way.

Mrs. Ross—I came from Lathrop and went to this place. I didn't have no money. I says to this lady, I says, "Will you please be kind enough to let me stay here for the night?" She says, "Certainly, come in." So I came in, and she gave me the double bed. I was not there any more than a half an hour or something like that, this gentleman, Mr. Walkerez, came in there; he rang the bell and asked her some questions. Of course I didn't hear what he said. He came in there and he said, "That is supposed to be my wife." So one word brought on to another there. She says to him, "Where is your marriage license?" "I ain't got it here," he says. "It is in Michigan City, Indiana." So we sat there, and in a minute she asked me if I would take care of her house; she liked me, anyway I got up in the morning and made breakfast; so after I got through with the chores and everything, made up the beds and swept the floor, she says, "I would like you to stay here and tend to my house. I like you in every which way." She says, "I will give you board and lodging and everything to take care of my place. I don't like to leave my place alone." So I staid there and took care of her place and done all the washing and ironing and cooking and housework that was to be done. Well, I staid there about three weeks. Then she says, "I see that you are getting kind of angry, so I will give you $10 a month to take care of my place." She says "there is too many things been stolen by that old Cyphus." She says "I can't stand it any longer, things have been stolen up stairs and down stairs, even the people that was moving in down stairs. He went and stole a gun and shoes, and stole an overcoat, and two or three other things. I forget what she did say. Of course when she offered me $10 a month I staid there and I was wearing out my clothes, and I thought $10 was better than nothing at all. So when she told me that she had a roomer by the name of Mr. George Flood. I says, "So I have to cook and wash and clean up after him too." She says "No, not exactly, he won't be home every night; he works in the Union Iron Works. He might be home two days in a week, maybe not two days in a month." Well, then Mr. Victor Walkerez he went and got a man working on that track down here, I guess, some place down here.

Captain Peterson—On the Subway.

**HE SKIPPED OUT.**

Mrs. Ross—Yes; I don't know what they call it. The first couple of weeks he paid us all up. I done the cooking and washing and ironing and everything to be done. Well, then he owed us for a week and a half's board and rooming, and he skipped out with his week's wages and clothes at night time. Oh, I should judge, about the last train. He went to the city some place. That is what the watchman says.

Mr. Leach.—When was that?

A.—I think it was some part in April, some part in April. I can't say for sure when he skipped out. Mr. Walkerez he hunted all over to find him. He says, "If I get hold of them I will either get the money or take it out of his hide." I says, "You don't want to do anything like that, what is the matter with you, are you going crazy altogether?" So one word brought on to another. Mr. Wixon was asking him for the money that he owed. He says, "You can't have anything more here, you have got to pay it." Well, of course, that was between Mr. Wixon and him. One word brought on to another there, and finally Mr. Wixon stopped it, and he would not let him have anything. He says to Mrs. Leroy, "What am I going to do?" I says, "Our book is stopped"; I says, "is Mr. Flood good for the meals?" She says, "Yes, go get my book, and get anything you want." I says, "I can't do that." I says, "You better go over to the store and get what is necessary in this place," so she always did so. She says, "Victor Walkerez is a bad man." Of course his name was Dick there.

**CALLED HIMSELF DICK.**

Mr. Leach—That is, you called him Dick at the house?

A. He called himself Dick there.

Captain Peterson—At the store?

A. Yes, sir; he called himself Dick at the house. Mrs. Leroy always called him Dick. Sometimes. I always called him Victor or Vic. She says, "The best thing you can do is to go to the hospital and I will take care of your things until you come out, and when you come out of the hospital you can send for them and I will send them to you." I went to the hospital. Once I went and staid there about two weeks.

Mr. Leach—Q. What hospital did you go to?

A. Last Monday.

**NIGHT OF THE MURDER.**

Mr. Leach—I say, what hospital did you go to, a hospital in San Francisco?

A. Yes, sir; well, this night that the murder occurred, she came home

# GIGANTIC SWINDLER EXPOSED IN THE SOUTH.

## Two Men Who Conducted a Bogus Game on a Large Scale Arrested By Los Angeles Police.

LOS ANGELES, June 5.—By the arrest late yesterday afternoon of Henry Christie and A. J. Taylor, president and secretary respectively of the National Construction Company, on two separate charges of obtaining money by false pretenses, it is apparent today that a gigantic swindle has been exposed.

The amount involved in the alleged fraudulent operations of the two men and R. A. Masterson, for whom there is a warrant in the hands of the police, and who has not been found, is variously stated at from $40,000 to $80,000.

The specific charge upon which the warrant for the arrest of Christie and Taylor was based is obtaining $2689.20 under false pretenses from the Continental Building and Loan Society of San Francisco.

The application was made in the name of Charles G. Rowan of this city for a loan to that amount on property not belonging to Rowan, and which, it is said, was fraudulently appraised at an excessive value. It is alleged that Rowan's name was forged on all the papers in the transaction and on the check for $2689.20. The check was then sent to Rowan in care of Masterson, the accredited representative of the Continental Building and Loan Society in this city. Although it is suspected that forgery was committed in the transaction, no criminal complaint on that charge has as yet been issued.

Frank G. Finlayson, attorney for the Continental Building and Loan Association, says that loans were made on about sixty applications, the majority of which are believed to have been irregular. Other complaints against the two men will be filed today.

The method used by the prisoners in obtaining loans from the Continental Society was based apparently upon the position occupied by Christie and Taylor as appraisers for the society in Los Angeles. It is alleged that through the National Construction Company which virtually consisted of Taylor and Christie, various properties were bought and sold, signatures thus being obtained. Applications for loans on these properties, appraised at inflated values, were the made out in the name of the purchaser of the property and upon these representations the money was secured from the loan society. In many instances, it is said, dummy names were used in the applications for loans upon property actually owned by members of the National Construction Company. The operations of Christie and Taylor and Masterson, who is believed to have had an equal share in the transactions, extended to Pasadena, where a considerable amount of business is believed to have been done.

The arrest of the alleged conspirators is expected to open extensive litigation to determine upon whom the loss shall fall. The checks issued by the Continental Loan Society in payment of loans were drawn upon the Canadian Bank of Commerce of San Francisco and cashed by local banks.

Henry Christie was formerly the owner of a bookstore on South Broadway. He sold out last August and joined Taylor, who was then the head of the Taylor Iron Company, a construction concern operating in Pasadena and Bakersfield.

The prisoners will be arraigned before Justice Austin at 4:30 this afternoon. When arrested late yesterday they were released on $3000 bail each. Later in the evening they were re-arrested on a second charge and were confined in the county jail in default of bail. Other charges are in course of preparation and will be filed today prior to the arraignment of Christie and Taylor.

# CONFESSION MADE TO POLICE BY A WHITE WOMAN.

(Contined from page 1.)

from lodge on Monday night. She carried her—she generally leaves her money with me and always did, and this day she didn't do it at all. She had a satchel underneath her bed, and I looked in and I says, "There is something wrong here." I says to myself, I says, "There is something wrong here, she didn't leave any money in there, generally she leaves her money in there or gives it to me and I hide it." So I says to myself, I says, "There is something wrong." So I waited and waited until she came home, and about a quarter to 5, I says, "Mrs. Leroy," I says, "did you have any money in our satchel?" She says, "No, I carried it with me three days in this satchel." It was one of those little hand satchels. She says, "I have got my money right here." There was $35 in all; two rings, $35; four handkerchiefs, three or four handkerchiefs, I don't know which. Well, after supper, I made supper and everything, and after supper she sat at the table there to read the paper. She had her glasses on.

Captain Peterson—That was not Monday night, was it?

A. This was Tuesday night. Monday night she went to the lodge.

Q. She went to the lodge and came home again?

A. Yes, sir; she went to the lodge and came home again, and Tuesday, as I say, she didn't give me any money.

Mr. Leach—She came home about 5 o'clock?

A. She went to work for some woman.

**GOT THE HAMMER.**

Captain Peterson—On Tuesday.

A. On Tuesday she went to work. She comes home about a quarter to 5, or something like that. I asked her, of course, where the money was. "Well," she says, "I have got it." Of course, after supper she sat down by the table to read the paper. She kept nodding. I was laying on the lounge. I laid down on the lounge after my work was all done. I says to her, "Mrs. Leroy, why don't you go to bed, you are nodding all the time. You are tired." I says, "Why don't you go to bed?" She says, "I can't go to bed now, I am too tired to lay down, my leg aches me too much." Well, in about five minutes past 9, Victor Walkerez; no it was 9 o'clock; he went to the clock, and he wound the clock. He set it right of course. The bell rings there for 9 o'clock, and he looked kind of funny to me, he looked kind of funny. He was always running back and forth from the bed-room to the front room, and from the kitchen into the dining-room, and back and forth there drinking water. I looked at him, I says, "Why don't you sit down and keep quiet?" Then he went into the bedroom. He must have had his hammer, it was a great big plumber's hammer, about, well, there was a knob on it about that size (indicating).

Mr. Leach—About an inch and a half across?

A. Well, about that big (indicating).

Captain Peterson—Whose was it, Flood's hammer?

**THE MURDER.**

A. I don't know whose hammer it was, it was a plumber's hammer, so all of a sudden at 10 minutes past 9, he hit her in the back of the head.

Mr. Kyte—With this hammer?

A. Yes, with this hammer, and she fell, and as she fell, he says to me, he says, "Why don't you go get something so the blood won't get all over everything?" I says, "I have got nothing to do with it at all." I says, "I aint a going to put my hands on her at all." I says, "You don't act right." I says, "I will see you in jail before long, too." I says, "You ought to be ashamed of yourself hitting a woman of her age, why don't you go hit a man and be done with it." I says, "Why don't you go hit a man." I says, "You are a young man." I says, "nothing but a young kid like you ought to be ashamed of yourself." So he went, while I was talking to him, he went and choked her, he choked her and that was not enough, he dragged her into the kitchen.

Q. Where were you sitting at this time, where were you. Lying down on this couch?

A. I was in the dining room. I was lying down. It was one something like that (indicating a lounge in the room). There was a cloth over it. Then I jumped up when she fell. I thought may be she fell asleep or fell down herself, but when I saw the blood come, that was enough for me. Well, he dragged her into the kitchen.

**AN AWFUL SCENE.**

Captain Peterson—Did you get a towel first, or did he do that all in the kitchen?

A. He did that all in the kitchen. He dragged her into the kitchen; he took a rope that was lying there on the washstand; he took that and put that about three or four times about her neck and drawed it just as tight as he could, and then, after he thought that she could not talk or breathe any more, he got a couple of roller towels and a red apron and he tied them around her head, so the blood would not get all over everything. And then he went, after he found out that she was dead, he went and got a couple of comforters, and he rolled her up in them, and then after he rolled her up and seen there was no blood around, he washed it all up and done everything, then he went and took her down stairs. He took her downstairs and put her in this box.

**ROBBED THE HOUSE.**

Mr. Leach—Did you go down with him?

A. No, sir.

Q. Did you go down there at all?

A. I went down the next morning.

Q. You couldn't go down that night?

A. Nor sir, I was too weak. That was enough for me. I was too sick anyway. You might as well say I would rather have been shot than to have that happen; I was too weak. So, after he took her down stairs, he went into the bedroom and, underneath her bed there was a telescope basket and amongst the rags that was in there like bedclothes, he found a box that had a closed cover on it. Then he took her jewelry and took her money; there was two and a half in gold, and then there was a whole lot of other money in there; he took all her jewelry that he could find; after he ransacked her room he went into Mr. Flood's room, after he got through with that, there was a barrel there standing in the closet, right near the kitchen in the dining room, between the dining room and kitchen, there was a barrel standing in the closet there; he went in there and he took, I think it was about a half a dozen knives and forks and spoons. A dozen of each of solid silver. He went and took them and took it up to this saloon, I don't know where it is, but I could easily find it, if anybody comes with me. I know where it is.

Mr. Holland—On what street is it?

A. It is up the track somewhere. It takes about 15 or 20 minues to walk to it from there.

Q. Is it up the track or down towards the bay?

A. Up the track, up towards Berkeley.

**HE TOOK A DRINK.**

Mr. Leach—A saloon by the track a little ways off to the left?

A. To the left, the left-hand side, there was a summer garden in the back of it, it used to be anybody could go in there and sit down and take a drink. I think Harry Something is the man's name that keeps it.

Mr. Holland—A Frenchman, isn't he?

A. I could not tell you that.

Q. Was there a French woman there, too.

A. Yes, sir. He took the silver and he went up there and he says, "Here I have got lots of silver on me, that is in money. I want you to change it into gold."

Q. He says this to you?

A. No, to this saloon man.

Q. You went with him at that time, were you?

A. Yes, I went with him. I was so nervous and everything. I went up there just to have a glass of beer, and then he bought a bottle of whisky, and paid a dollar for that and he bought a bottle of port wine and he paid 50 cents for that.

Q. That was the night he committed the murder?

A. That was this same night this all happened, on the 5th of May, and I went up there, just as I say, to have a glass of beer. I walked back again. Of course, there wasn't any use, we could not take a car, so we walked back again, and he left me there, and then he went to the city. He says, "I am going over to Hattie's and tell her to come over in the morning."

Mr. Leach—Who was Hattie?

A. Well, Hattie Cochrane, I think it is.

Q. Is she a colored or a white woman?

A. She was a colored woman, supposed to be colored, she looke like a Spanish woman. Well, I says, "What do you want to go over there for? To get her, do you want to get yourself into more trouble?" So she brought a great big telescope basket over.

Q. When?

A. This happened two days afterwards, I think it was.

Q. Well, just follow him up. Say what he did, before Hattie came there.

A. He says, "——"

Mr. Leach (interrupting)—Well, did he go to the city that night?

A. Yes, he went to the city and told her to come over.

Q. What train did he go over on?

A. I think it was 10 or half-past 10, something like that.

Q. When did he come back?

A. The last train?

Q. The last train, the same night?

A. Yes, sir. And then he stopped up to a friend of his, I forget the name.

Q. When did he next come back to the house of Mrs. Leroy?

A. The next morning at daylight.

Mr. Holland—Where was the French house from there?

A. About two blocks from there.

Q. On San Pablo avenue.

A. Yes, sir.

Q. Towards Oakland or the other way?

A. Towards West Berkeley. Well, from the house towards, well, right towards the right, that is what he told me.

**BURYS THE BODY.**

Q. Well, he got to your house about daybreak?

A. Yes, sir, he got to the house about daybreak and he says to me, "Kid, come downstairs and help me bury her." I says, "No, I will not." I says, "The idea of you coming back here, and doing that kind of a trick. I says, "You ought to be ashamed of yourself, if I was not so sick I would go down to the Chief of Police and find out things." If I was not sic., I would have come here a long time ago.

Q. Well, go ahead with your story.

A. So, well, he says to me, "Come down." So he takes his suit off, and then he puts on some overalls. I guess they are round about the house now, brown overalls. He puts them on and goes down stairs and I went down the back way to use the toilet there; he had everything locked up as tight as could be, even nails on the windows, so nobody could see. Anyhow, so that Cyphus Oliver could not look in, so he could not look at all. Then he went and pulled up the boards and he dug a hole.

Captain Peterson—Under the steps?

A. Right where this man seen it today. He dug a hole. I says, "What are you going to do? Are you going to bury her just the way you have got her wrapped up now." I says, "Why don't you lay her out good, like a person ought to be buried." "No," he says, "the quicker it is done the better I like it." After it is all done, he went—there was too much dirt, and he went and took an old wash boiler, and put the dirt in there and took some flowers out of the garden and it in there so it would show that she done it. I think there is a bucket there now, one of those brass buckets, I guess. That is filled up, if I am not mistaken.

Mr. Holland—Full of dirt?

A. Full of dirt and flowers in it; then he covered the hole up and mashed it down as tight as he could.

Mr. Kyte—How did he mash it, with his feet or stamped on it?

**DRAGGED THE BODY.**

A. Oh, I don't know what all, and then he went and took the boards and nailed them down again and then he took the oilcloth and put it down, just like it was before.

Mr. Holland—Did he use anything for tamping it at all, or just his feet?

A. Just with his feet, that is all I saw.

Mr. Kyte—Where did he throw that dirt when he threw it out of the hole?

A. Just that step down that you seen there.

Q. Did he throw it out where the step was or up on the floor?

A. No, sir, where the step was down.

Mr. Peterson—How did he get the body downstairs?

A. He dragged it down, I guess. It was too heavy to carry.

Mr. Leach—Did you see him take it downstairs?

A. I saw him take it down as far as the door.

Mr. Holland—That was the night before?

A. That was the night she was murdered. He took it down stairs and put it in the box, that is towards the right there where she was buried.

Mr. Leach—Where were you when he put the body in the grave?

A. I was outside the door.

Q. Was the back door open?

A. No, sir, he had it locked, but I could see through the hole. There was a hole about that big (indicating).

Q. You were in the toilet?

A. I went to the toilet. I heard some noise; he said he was going down to bury her; he says, "I am going to bury her downstairs.

**WATCHED EVERYTHING.**

Q. You watched him, did you while he buried her?

A. I watched everything.

Q. What did he do after he buried her, put the boards back and put the linoleum on the stair?

A. He came upstairs and I cooked something to eat, then he went and packed up the telescope basket full of clothes and went over to the city.

Q. Did you go with him?

A. No, sir. I staid right in the house.

Mr. Kyte—What time in the morning did he bury this body?

A. Just about daybreak, about 5 or 6 o'clock, something like that.

Mr. Leach—Just as soon as he came home, did he go right off?

A. When?

Q. He came home that morning about 5 o'clock; did he start right in as soon as he buried her to pack up the telescope basket?

A. As soon as he buried her, he packed up the telescope basket full of good clothes.

Q. How long did you stay there after that?

A. About three or four days.

Q. Did he come back during that time?

A. Yes, sir, he was back and forth all the time.

Q. More then once a day?

A. Oh, he would go away about 3 o'clock in the morning and come back, and then go out again about three times a day.

Captain Peterson—You left there the following Friday, didn't you?

A. Yes, sir.

Q. And the murder was committed on Tuesday, and you left on the following Friday?

A. Yes, sir.

Mr. Leach—Did he sleep in the house any night after he murdered her?

A. About twice, that I know of.

Q. Where did you stay with him after that? Did you go to him after you left there?

A. I didn't go to him.

Q. Have you staid with him at all then?

A. No, sir, I didn't live with him at all.

Q. Not at all after that?

A. No, sir.

Q. Have you said with him at all any night since you left there?

A. No, sir.

**IN THE HOSPITAL.**

Q. Where have you lived since then?

A. I lived down—I was in the hospital part of the time.

Q. How long were you in the hospital?

Mr. Kyte—What day did you go to the hospital?

A. I went to the hospital the same day I left here.

Mr. Leach—You went there the day you left; how long did you stay there?

A. I said there until a week ago and then I went and took a room down at 325 Third street.

Q. In Oakland or San Francisco?

A. No, sir, in San Francisco.

Q. Under what name did you stay in the city and county hospital in San Francisco?

A. My own name.

Q. Mrs. Annie Ross?

A. Yes, sir.

Q. What ward were you in?

A. "E."

Q. Who was your physician?

A. The doctor.

Q. Yes?

A. Dr. Von Hoffman and Dr. Moore.

**HE STOLE HER MONEY.**

Q. Have you seen Victor Walkerez since the day you left the house out there?

A. I seen him on the 20th, and he stole $20 from me.

Q. You saw him where on the 20th?

A. In the hospital.

Q. He came to the hospital, did he?

A. Yes, sir. And he found out I was there——

Q. Did he say what he was doing at that time?

A. He said he was not doing anything.

Q. Where did you first meet him?

A. How do you mean?

Q. When did you first get acquainted with him?

A. I think it was about in January.

Q. Of this year?

A. Yes, sir.

Q. Where?

A. In Lathrop.

Q. Lathrop, California, was it?

A. Yes, sir.

Q. What was he doing then?

A. Farming.

Q. With whom?

A. A man by the name of Pratt.

Q. Right near Lathrop?

A. Right in Lathrop.

Q. In Lathrop?

A. Yes, sir.

Q. What were you doing at that time?

A. I was doing housework there for farmers.

Q. What were their names?

A. I forget their names now. But, anyway, it was, I think it was, the Sheriff of the town.

Q. Or constable, which. He was an officer, was he?

A. He was an officer, yes, sir, it commences with an "M," his name does.

Q. Did you ever talk to him about his business, as to what business he had been in?

A. Which man?

Q. Walkerez?

A. Well, at the time of the strike, he worked down at the Pacific Mail dock.

Q. Doing what?

A. Just like a truckman, carrying things from one place to another, he is a barber by trade.

Q. He is a barber by trade, is he?

A. Yes, sir.

Q. Do you know where he ever worked as a barber?

A. No, sir.

Q. Did he ever tell you any place he ever worked as a barber?

# BETTER SHIPPING FACILITIES.

RAILROAD COMPANY ACCEDES TO DEMANDS OF GROWERS AT SAN LEANDRO.

SAN LEANDRO, June 4.—The railroad companies have finaly acceded to the demands of the growers for better transportation facilities to San Francisco. For a long time the ranchmen have been losing money on the shipments of fruit to the city, because the fruit loaded on freight cars at 7 o'clock in the evening would not get to the city markets until 5 o'clock the next morning. This was some hours after the market had opened and as a result the furit would often have to go unsold until the following morning, which resulted in a great loss to the shipper. A ferry company knowing that the growers were dissatisfied with the way affairs were being conducted, interviewed a number of them and made a proposition to take consignments of fruit direct from a landing place on the bay two miles away, and carry them over to San Francisco in time for the opening of the city markets. The ranchmen thought well of the plan and might have adopted it but the transportation companies sent representatives through the valley, who agreed to give quicker service to the city in the future and the boat plan was acordingly dropped. The farmers will hold the Dimond Ferry Company's proposition over the railroads now, as a warning of what may happen in case transportation facilities are not perfectly satisfactory.

QUIET AT THE CANNERY.

Fruit canning has not yet commenced at the factory of the San Leandro Canning Company. Cherries are so scarce this year that the proprietors consider it inadvisible to attempt to can any. All that are grown in this vicinity are being shipped to San Francisco.

SCHOOL ELECTION.

The school election this year promises to be a very quiet one, quite contrary to the usual hard contests fought out annually at the polls. Capt. Ritter is the retiring member of the board and refuses to be a candidate for re-election. Thus far Charles Hale is the only candidate in the field to succeed him, and as the election takes place tomorrow afternoon he will undoubtedly be chosen for the place.

# ENSIGN METCALF ON THE WISCONSIN.

Martin K. Metcalf, son of Attorney George D. Metcalf, of the firm of Metcalf & Metcalf, of this city, who recently graduated four months ahead of his time from the Naval Academy at Annapolis, is now aboard the battleship Wisconsin, which is on its way to join Uncle Sam's fleet in Asiatic waters. The Wisconsin with a complement of 600 men, sailed from Puget Sound May 14 going to Honolulu from which port she sailed for Yokohama on the 28th ult.

On board the battleship is Admiral Yates Sterling who will be junior admiral in command in that section for the Naval Department. The ship is in command of Captain U. Sebree. Mr. Metcalf is serving a period as past-midshipman under the old law, prior to receiving his first commission in the navy as ensign. He is one of the most promising young men in the navy.

# FIFTH INFANTRY IN HEALDSBURG.

It has been finally decided that the annual encampment of the Fifth Regiment, N. G. C., will be held at Healdsburg, beginning July 18th. Four companies of this regiment are located in this county, namely, A and F companies of this city, G Company in Alameda and I Company in Livermore. Healdsburg has been selected because of the proximity of Russian river, which will enable the boys to enjoy a bath whenever so disposed and which, at the same time, affords other first-class sanitary facilities. This year the equipment of the medical and surgical staff will be the most complete which has ever accompanied the regiment into an encampment.

NEW YORK, June 4.—The twenty-ninth annual convention of the American Bankers' Association is to be held in San Francisco on October 20-23 next.

# BODIES FOUND IN RIVER.

SIX VICTIMS OF THE FLOOD PICKED UP BY RESCUERS.

TOPEKA, Kas., June 4.—Six unidentified bodies, those of three men and three women, victims of the North Topeka flood, wer epicked up today at noon by some o fthe Ottawa rescue boats out of the Kaw river driftwood west of the city. A rope was tied around the body of one of the women. Evidently she had been tied to a tree to prevent falling into the water. Many were forced to remain perched o nlimbs for hours. The sanitary conditions in North Topeka were made worse today by the bursting of several sewers and water pipes.

# GO ON A STRIKE.

COOKS AND WAITERS IN CHICAGO ARE NOT SATISFIED WITH WAGES.

CHICAGO, June 4.—Waiters and cooks in a number of down-town restaurants made good their threat to walk out at noon today. No attempt was made by the proprietors of the places to serve patrons. The strike was decided upon last night by the joint board of the unions concerned after having heard reports from every restaurant in the down-town district and finding that only two proprietors had signed the scale.

CURIOUS INFORMATION.

Dealers in wild animals get most of their lions from Nubia. There the natives search for a lioness with newborn cubs, kill the mother and bring up the young beasts on goats' milk. When they are two months old they are taken to the coast on the backs of camels and shipped to Europe. Lions are also obtained from Abyssinia and Senegal. Formerly the Atlas Mountains furnished the finest lions, but the species now no longer exists except a few specimens in menageries. Adult Nubian lions are worth $1,000 apiece, while Senagal lions range in price from $500 to $750. Tigers vary in price from $375 to $1,500 apiece and more, according to variety and rarity of the animal. Siberian tigers, for instance, sell at the latter figure. They are large, beautifully striped creatures. In the winter they grow a long, wooly winter coat. Some full grown tigers are captured in pitfalls, but most specimens of these animals are caught while small cubs are raised on milk. The hippopotamus, the rhinoceros and the giraffe are difficult to secure. It is practically impossible to capture a full-grown beast of these species and the young ones are hard to rear. A baby hippopotamus will drink thirty pints of milk a day and a baby rhinoceros almost as much. Thus it requires the presence of a large herd of goats in the wilderness to supply milk for such creatures. A hippopotamus is worth from $2,500 to $3,000, a rhinoceros slightly more, while giraffes sell at $2,500 or more, according to size, age and condition.

Cremation has been practiced by most of the nations of the earth from the earliest ages and although in pagan countries it may have taken the form of fire worshiping there can be no doubt that its adoption by the ancients was for the most part prompted by other than religious reasons. Greeks ascribe its introduction to Hercules, who, having sworn to transmit the body of Argus to his father, thought this the most convenient way of fulfilling his promise. According to Homer, the burning of the dead was a common practice among the Greeks long before the Trojan war, but the earliest record of it is among the Scythians, who inhabited the vast region known under the name of Tartary. Slenler accounts handed down concerning the manners of some of the ancient natives of Hindostan also allude to the custom. The idea of purification by fire was in all ages universal, and with good reason. Some believed that the body was unclean after the departure of the soul and it was therefore deemed necessary that it should be purified by fire. Ovid expressed the general opinion of his time when he said that the soul was ont completely separated from the body until the latter was consumed oh the pyre. The Athenians invariably, after a battle, burned the slain.

WORK.

We view the star-sown heavens, and say,
"God's work is infinite" and pay
Adoring homage. By this sign
We claim our heritage divine.

For we—are we not born to scan
His wide domain, His wondrous plan?
We are the children of his care,
For us He made this world so fair.

He gave us mind, He gave us heart,
For what, if not to do our part?
Our little measure of His will,
So good to know and fulfill.

For each His work—the earth goes round;
One builds a boat, one tills the ground;
One sows a seed, one finds a star;
One seeks new continents, afar.

One digs for precious gems and ore;
One makes a compass, and one more
Discovers gravitation's laws;
One seeks of rain and dew the cause.

One studies flowers, one studies creeds;
One seeks to know the world's great needs;
One writes a book, one preaches well.
One does a kindness. Who can tell
Of all good works—these and the rest—
In God's great wisdom, whose is best?
—Boston Transcript.

Kind But Firm.

An English Bishop owned a portable bathtub which he failed on one occasion to take with him on a pastoral visitation. When he returned he found that the housemaid had used the beloved bath. Calling her into his study, he said kindly: "Mary, I do not so much mind your using my bath, but what I object to is that you should do behind my back what you would not do before my face."
—Lippincott's for June.

"The Delightful Gesture"—The Kiss.

A kiss is a peculiar proposition. Of no use to one, yet absolute bliss to two. The small boy gets it for nothing, the young man has to steal it and the old man has to buy it. The baby's right, the lover's privilege, the hypocrite's mask. To a young girl, faith; to a married woman, home, and to an old maid, charity.—Nashville Banner.

# SHOT A GIRL IN THE MOUTH.

LITTLE ONE HAS JUST AN EVEN CHANCE OF RECOVERY.

SAN FRANCISCO, June 4.—Shot in the mouth with an air-gun in the hands of unknown boys last night, 12-year-old Rosie Avaelon now lies in a serious condition at the home of her parents. The attending surgeon has not removed the bullet, and it is not known definitely just where it is located, but it is believed that the little one has an even chance for recovery.

# CAR CONDUCTOR PASSES AWAY.

PASADENA, Cal., June 4.—William Carlton, the street car conductor who was shot on Sunday evening by Archie Hill, a mulatto, died today from the effects of his wound. Hill claimed that the conductor failed to return change from a $5 gold piece, which he had given for his fare. In revenge for this the mulatto laid in wait and on the return trip of the car boarded it and shot Carlton without warning. Investigation proved that the conductor had not received the gold, as Hill alleged.

THE HOUSEWIFE'S OMAR.

Come, clean the house, although this rite of spring
From cook and housewaid sudden worning bring
They're certain to give notice, anyway.
For wages rise— and they are on the wing!

Whether in Boston or in Binghamton,
Whether the house be lax or strictly run,
The cook has tempers every day or two,
The housemaid breaks the teacups one by one.

Each slip a hundred bridges brings, you say,
Yes—but where lives the cook of yesterday?
And this new age that brings the sullen Swede
Sweeps the old family treasure quite away.

The girl gains schooling, writes—and having writ
Moves up—not all your wages or your wit
Shall lure her back from office, store or desk
She will not do plain housework—not a bit!

The eight-hour plan some set their hearts upon
Turns ashes, even with millionaires, anon.
Maids by the day refuse the evening task,
And when the caller rings the bell, are gone.

An old-time cookbook, simpler far than now,
A loaf of homemade bread, no fuss, no row,
But bright singing as she cleans the sink—
Oh, such a home were Paradise anew!

I sometimes think how wonderfully good
Waffles would taste instead of breakfast food,
And how the clothes would last if washed at home—
But what's the use of such a yearning mood?

Yet make the most of maids today—the end
May be that, servantless, we shall descend
To dwell in huge co-operative plants,
Sans privacy, sans hope, sans homes to tend.

Ah, Bridget, fill the coffee cup that clears
Today at least, of our domestic fears!
Tomorrow!—maid and mistress both may be
Swept from the path of the progressive years!
—Life.

TWO SONNETS.

I.

LOVE'S BLOSSOMING.

Beloved, in the garden of my heart
There fell one night a solitary seed;
I knew not whence it came nor what its part,
Nor of what nourishment it might have need.
Weary with wandering through the ether wide
It slept, and, when its weariness was gone,
Said, "In this pleasant spot will I abide."
And with the fairest claim comparison.
Startled I watched with keen and constant eyes
The growth to bud and blossom of my guest,
Like one to whom 'tis very Paradise
To see her infant drain her ample breast;
And, lo! I found one happy evening hour,
My heart was harboring Love's immortal flower.

II.

LOVE'S DISDAIN.

Our love is not the prating world's concern;
What right have they thy worth to criticise
How can they hope thy grace to discern,
Who only own unsympathetic eyes?
It may be that they think thou art not fair,
And the great goodness merely commonplace.
When all the while, it is my pen's despair
In living lines these very things to trace.
To me thou art a being bright as day,
Fairer than Truth, if such a thing could be.
Pure as the Maid who shames the stars away,
And to her bosom draws the restless sea.
Let no one seek these merits to disprove,
Who has not seen thee through the eyes of love.
—James Whitehead in April Blackwood's Magazine (London).

THOUGH WE REPENT.

Though we repent, can any god give back
The dear, lost days we might have made so fair,
Turn false to true and carelessness to care
And let us find again what now we lack?
Oh, once, once more to tread the old time track,
The flowers we threw away once more to wear!
Though we repent, can any god give back
The dear, lost days we might have made so fair?
Who can repulse a stealthy ghost's attack,
Silence a voice that doth the midnight blare,
Make fresh hopes spring from the grave bed of despair,
Set free a tortured soul from memory's rack?
Though we repent, can any god give back
The dear lost days we might have made so fair?

# HIGHLY ENDORSED

THE FOLLOWING LETTER SPEAKS FOR ITSELF.

Robert Morgeneier
Chemical Engineer, Etc.,
524 East Eighteenth St.

Oakland, Cal., June 1, 1903.

TESLA COAL COMPANY,
Foot of Madison Street,
Oakland, Cal.

Gentlemen:

A practical test of the "TESLA" briquettes, shows following results, viz:

First—That they contain over 60 per cent of Carbon and consequently are to be classed with the high grade coals.

Second—That the proportion and quality of the cementitious bitumen employed in their manufacture, renders them a PERFECTLY FREE BURNING, practically smokeless fuel, the combustion of which, in any ordinary stove, range or open grate, is complete.

Third—That compared with the coal briquettes of France, Austria, Germany, and Belgium, the "TESLA" are superior to these in heat units, cleanliness, weight and low volumn or bulk of ash.

Fourth—That at the delivered price of $6.00 per ton of 2,000 pounds, they are undoubtedly the best and cheapest domestic fuel offered on any market in the UNITED STATES.

As prospective consumers may be interested in a statement of the actual use and cost of a certain quantity of this fuel, I will state the following particulars.

With 1,000 pounds "TESLA" briquettes, burned in 30 consecutive days, in one six-cover "Detroit" steel kitchen range, there were cooked 120 full meals for a family of four adults, or a total of 480 meals, at a COST OF LESS THAN ONE CENT PER MEAL PER PERSON.

Hot water for one Bath-tub and 3 wash stands, hot water for family washings and ironings heat therefore, was also furnished—or, in other words, all the heat required for domestic purposes in a household composed of four adults, costs, when using "TESLA" briquettes, 10 CENTS per day.

Yours truly,
ROBERT MORGENEIER.

# PRESIDENT NEARS CAPITAL.

ROOSEVELT MAKES SHORT STOP IN PITTSBURG THIS MORNING.

PITTSBURG, June 5.—The train bearing President Roosevelt and party arrived here over the Pennsylvania at 8:14 this morning, seven minutes ahead of time, and departed for Washington sixteen minutes later. The train is to take a slow schedule over the Alleghany mountains.

During the stop here the President got off the train and walked the platform and took a stroll some distance up the track, stopping here and there to shake hands with the railroad employes. On account of the hour of the President's arrival there was quite a large crowd at the station, many coming in on trains from the suburban towns to their daily employment.

The crowd started to cheer after the President had returned to his car and this brought him to the rear platform, where he bowed and said:

"I am heappy to be with you. Happy to get back from my trip. Good luck to you all."

After the train pulled out he waved good-bye.

**FREE LECTURE TONIGHT.**

There will be a free lecture at the New Thought Institute, 857 Clay street, this evening, after which the subject to be debated will be "What is Success."

# RIVERS FALLING RAPIDLY.

THE MISSOURI FALLS NEARLY TWO FEET IN TWENTY-FOUR HOURS.

KANSAS CITY, June 5.—The rivers here are now falling as rapidly as they rose before the flood. The Missouri has fallen a foot and nine inches in the past twenty-four hours, and at 7 o'clock this morning the Government gauge registered thirty-one feet. The Kaw fell nearly two feet in the same time. By Saturday noon the platform of the Union depot, the high mark, will likely be partially above water. Permanent wire communication was opened today between the two Kansas Citys for the first time since Sunday and this will aid wonderfully in the work of restoring order.

The several hundred refugees from Armourdale and other districts, who have been housed in Convention Hall, were removed today to tents in the south portion of the city because of the sanitary condition of the hall.

# TREATY FOR LIGHT DUES SIGNED.

WASHINGTON, June 5.—Secretary Hay and Sir Michael Herbert, the British Ambassador, today signed a treaty for the imposition of light dues at Zanzibar. The convention provides for an imna (3 cents) per ton, the proceeds to be expended in establishing lights on the coast.

# THREE MILLS AT WORK.

THREAT OF TEXTILE MANUFACTURERS CAUSES STRIKERS TO LOSE HEART.

PHILADELPHIA, June 5.—Three textile mills in the Manayunk district resumed operations today. The strikers are for the most part organized and the threat of manufacturers to keep their mills closed indefinitely is said to have caused the striking operatives to lose heart.

Nine dye houses have granted the demand of the operatives, making seventy-eight firms which have made concessions. The ranks of the strikers in the Kensington district, where the majority of the mills are located, are said to be intact. Two mass meetings, attended by about 9000 strikers, were held today.

# THOUSANDS WILL GO ON EXCURSION.

Thousands of people will doubtless go to Point Richmond tomorrow on the special excursion that leaves here in time for the great auction sale of real estate in that rapidly growing city. Never before has such marked interest been shown in the selling of land on this side of the bay, which of itself is proof that public confidence in Point Richmond cannot be shaken.

Five years ago, Point Richmond was a swamp and nobody appeared up to that time to recognize that it was surrounded by all the elements that go to make great cities. A magnificent water front and the facilities, which it could be connected with railroad facilities were no sooner noticed than all the great railroad men of the country at once proceeded to take advantage of it. During these five years, the price of land has increased fully ten times, and while it is, of course, phenomenal, it is no more so than the prospects are now offered for a similar increase in the next five years.

The Laymance Real Estate Company secured a large portion of the most valuable residence property close to the point where the Southern Pacific and the Santa Fe railroad companies came together. About three hundred of the best of these lots will be sold Saturday absolutely without reserve, and the opportunity for an investment should be taken advantage of by every body who can afford to make a very small payment and to pay the balance in little amounts each month. People who have no desire to buy at this time, should in any event, take advantage of this excursion as it will open their eyes to the astounding progress made in the city of Richmond.

**SITUATION SOMEWHAT IMPROVED.**

WASHINGTON, June 5.—The official report on postal conditions in the flood regions, telegraphed from Kansas City to the department says the situation is somewhat improved but still uncertain.

**BATTERY CASE POSTPONED.**

ALAMEDA, June 5.—The trial of Attorney Kase, charged with battery on complaint of M. Wenschlow, was set for tomorrow before Justice Fred Vone. Upon the request of the District Attorney, however, it has been postponed indefinitely, on account of another trial before Judge Quinn of Oakland. One of Kase's clients has accused Wenschlow of assault with a deadly weapon. The hearing was set for yesterday afternoon but Justice Quinn has postponed it until next Thursday. The District Attorney wished this case to be settled before the Kase one is brought up as the same evidence will be used in both.

More work is put upon naval guns in target practice each quarter than they were required to stand during the Spanish war.

# MANY TEACHERS RESIGN.

TEACHING FORCE OF ALAMEDA SCHOOLS RECEIVE GENERAL SHAKE-UP.

ALAMEDA, June 5.—That there is to be a general shake-up in the teaching force of the local schools is evident from the resignations submitted last evening at the conference of the Board of Education.

Miss Ada Conrad and Miss Jane Lawrence have resigned from the Haight School, as they are to be married. Miss Ada Cornwall, a substitute teacher for the grammar schools, has resigned. Leon Martin, assistnat in history at the High School, is going to leave in order to take up the study of law. Miss Lillian Versalovich, instructor in Spanish; Mrs. Mary Dickson of the commercial department and Miss Emily J. Hamilton, teacher in English, all members of the High School faculty, handed in their resignations last evening. It is said, at the request of the members of the board. It is rumored also that Principal O. E. Swain of the Wilson School, and Principal George D. Kierluff of the Encinal School have also been asked to resign.

The Board of Education meets this evening for the annual selection of teachers for the ensuing year and some more surprises are expected.

### ANOTHER FIRE ON LOT.

ALAMEDA, June 5.—A grass fire broke out again this morning on the vacant lot at the corner of Santa Clara avenue and Lafayette street. As it was blazing up pretty high and the flames were endangering a nearby house, an alarm was turned in shortly after 10 o'clock. The department extinguished the blaze in a short time. There was a fire in this same lot the early part of the week.

### NEW ATHLETIC CLUB.

ALAMEDA, June 5.—A number of West End merchants have subscribed to a fund to purchase a flag and pennant for the Western Athletic Club, organized a short time ago with headquarters in the old Terrace Baths. The club will give its first open night on June 20. The membership roll is rapidly increasing, and will soon reach the limit set. Edw. Houston and W. Lieber were taken in at the last meeting.

### TO PEDDLE WITHOUT LICENSE.

ALAMEDA, June 5.—F. W. Waest of 1727 Webster street and D. U. Fuller of Fruitvale have applied to the Trustees for permission to sell fruit and potatoes in the city without a license on the grounds that they raise the produce in their own market gardens. Waest's petition is indorsed by Trustees William Bowers and H. Pond. Fuller's is recommended by Trustee B. E. Combs.

# TRACKS WILL BE REMOVED.

CITIZENS MUCH PLEASED OVER ACTION OF SOUTHERN PACIFIC COMPANY.

ALAMEDA, June 5.—The West End Improvement Club held a meeting last evening. The matter of removing the gates from the local trains was discussed pro and con. Chairman Fordere of the Board of Trustees was present, and told the members that the Southern Pacific Company had agreed to remove its tracks from Railroad avenue, west of McPherson street. The club was so pleased over the action of the railroad company that the officials were given a vote of thanks for removing the eyesore from the avenue.

### FAREWELL LUNCHEON.

ALAMEDA, June 5.—The seniors and other pupils of the Haight School yesterday entertained their teachers at luncheon. The affair was a most enjoyable one. Two of the teachers, Miss Ada Conrad and Miss Jane Lawrence, have resigned from the force. The luncheon was in the nature of a farewell to them and the forty-four graduates.

### SERVICES WILL CONTINUE.

ALAMEDA, June 5.—Rev. Potter Hitchcock, pastor of the Congregational Church, at Central avenue and Chestnut street, has announced that services will continue as usual during the summer vacation, except that there will be no Sunday evening meetings until he returns on July 12th. F. N. Greeley will supply the pulpit during the absence of the pastor.

### STORE IN SHERIFF'S HANDS.

ALAMEDA, June 5.—Ludor Hopken's cigar store at the West End is in the hands of the Sheriff. Robert Krenzel, a wholesale dealer in Oakland, has brought suit against Hopken for $137 in Judge Tappan's court. The defendant recently moved his store from Webster street to Haight and Webster streets in the West End. Other suits have now been commenced against him by various creditors.

# RIVER RISING AT CHESTER.

CHESTER, Ill., June 5.—The river at this point is rapidly rising. The rise has been so great within forty-eight hours that it threatens to do great damage to property of persons living at Kaskaskia Island.

The home of Stanley Jones on Kaskaskia Island is entirely surrounded by water and friends of the family in Chester have sent a boat to their rescue.

Great damage is being done to crops in the lower sections of the country here.

# ICE COMPANY HAS INCORPORATED.

NEW YORK, June 5.—The Standard Ice Company has been incorporated in Maine with a capital of $10,000,000, of which one-fifth is seven per cent preferred. The incorporation of the company was made through the Corporation Trust Company of Jersey City and others affiliated with the trust company are said to be behind the new concern.

FURNITURE DEALER ARRESTED FOR DOING EXPRESS BUSINESS WITHOUT LICENSE.

ALAMEDA, June 5.—J. A. Durkee was arraigned before Justice Tappon this morning on the charge of doing an express business without a license. He pleaded not guilty and will be tried next week. Durkee is a furniture dealer here who secured a contract to move supplies from the city hall to the various schools throughout the town. He hired William Gardener to drive the team and the latter was arrested by Detective Brown for not having a license. Then Durkee got P. F. Kellogg, a regularly licensed draayman to finish the job. Durkee claims that he cannot afford to pay $7.50 for a license on a $2.50 job.

### POKER IN POETRY.

"Come to the Center, for the Game is on;
Chip; For a Pot is never lost till won;
Separate cheerfully, and if you lose
Smile, for Another's just behind this One.

"The yellow Chips men set their hearts upon
Grow numerous or dwindle, and anon
Like Smile upon a Bluffer's foolish face
Giving the Lie to Promises, are gone.

"By thrift the Seeds of Fortune I did sow,
And with Pat Hands I nourished them to grow,
But, losing on a set of Fours, I learned
They come like pulling Stumps, but swift they go.

"Lately I dreamed I held four Hearts and stayed
And stood three Raises, not at all dismayed,
And then an Angel Shape slipped me a Card
And smiled; and when I looked—it was a Spade.

"Then, as you sit around the Board—alas—
With full intent each other to harass,
Deal out a Hand where I was wont to sit
And whisper when it comes to me: 'He'll pass.'"

# RESTRICTIONS TO RELAX.

ALL RACES ARE SETTLING DOWN TO ORDINARY LIFE IN SOUTH AFRICA.

CAPE TOWN, June 5.—The Governor of Cape Colony, Sir Walter Hely-Hutchison, opened Parliament today. In his speech he said he hoped to shortly be able to relax the remaining restrictions on liberty because of the success which attended the policy of peace and reconciliation. All the races were settling down to ordinary life. The present session was called to ratify the customs convention drawn up at Bloemfontein and to sanction the construction of several new railroads. With the continuance of the present buoyancy of the revenue, the increased expenditures would not involve additional taxation.

Enos was originally prepared for two sisters of Christensen, and had it not gone astray Christensen might now be enjoying the proceeds of their property.

## COWARDLY EXPEDIENCY.

The platform adopted by the Ohio Republicans presents a halting conclusion on the suffrage question. It declared for the enforcement of the negro suffrage amendments to the Federal Constitution "or a reduction in the representation of the Southern States."

Is the constitution mandatory or is its enforcement a question of political expediency?

The declaration of the Ohio Republicans implies that it is all right to disfranchise the negro provided the States doing so are deprived of representation in Congress and the Electoral College equal to the vote suppressed.

But what about the negro's right to vote, a right guaranteed by the constitution? What about the representation he is supposed to obtain through the exercise of the franchise?

Either negro suffrage is a failure or it is not. If it is, in God's name let us be honest with ourselves and say so, and declare for a repeal of the amendments.

If it is not a failure, let us say so fairly and frankly and demand the enforcement of the Federal Constitution, not indulge in juggling pronunciamentos, loaded with ifs and ands and alternatives, which cry good Lord and good devil in every line and smack of cowardly expedience from beginning to end. Such declarations are fair neither to the negro nor the South. They are not honest, because they palter and evade.

Apply the declaration to Ohio, for instance, and its absurdity is at once exposed. Has negro suffrage proved a failure in Ohio? If it has not proved a failure in Ohio, why has it proved a failure in Kentucky or Virginia?

The constitution is the supreme law of the land. Its enforcement is not a question of expediency or of local sentiment. So long as it is the law it should be obeyed and enforced—not in localities but throughout the entire Union. If it be defective in any particular, it should be amended, not allowed to fall into innocuous desuetude.

What would be said of a municipal convention that declared saloons should be compelled to refrain from selling liquors to minors or that one-third of them should lose their licenses? Such a declaration is precisely analagous to the suffrage declaration of the Ohio Republican platform. Republican conventions were not wont, in times past, to be so cowardly and evasive in standing for the maintenance of the constitution and the laws.

It is announced that King Edward will be cordially welcomed but not "officially received" when he visits Ireland. This probably means that he will not be accorded the "royal salute of four and twenty bricks" fired at the captain of the Bugaboo. His Majesty can well afford to dispense with any formal ceremonies by the authorities. An official reception is likely to be accompanied by an unofficial protest that would be more interesting to a student of national temper and characteristics than to a sovereign seeking manifestations of good will on the part of his subjects.

---

A Fresno policeman was arrested on a misdemeanor charge, and fifteen minutes after getting out of court arrested the Justice who issued the warrant, for having a lottery ticket in his possession. The vigilance of that officer needs rewarding. A six months' job on the rock pile would probably cool his ardor and be a not inadequate recognition of his efficiency. The swift officer should receive due appreciation.

---

It is frequently stated that the inhabitants of the United States are the richest in the world. That is a mistake, if per capita wealth is meant. The wealth of the United States is greater than that of any nation in the world, but the per capita wealth of the French is greater. Moreover, wealth is more evenly distributed in France than in this country. Among the French there are fewer immense fortunes and larger proportion of moderate fortunes than with us. This is due, to a considerable extent at least to the fact that the French people are more universally thrifty and saving than those of any other country.

With some regret we observe that the efforts of the Alameda Argus to instruct the San Francisco editors are not appreciated. The bad boys of the big newspapers across the bay respond to the kindly endeavor to put them in the kindergarten class with ribald jeers. The editor of our Alameda contemporary can probably accomplish more for the uplifting of the race by digging potatoes than by trying to reform the methods of the San Francisco press. In picking out this job he has bumped up against the real thing.

## CONCERNING MENTAL SOUNDNESS.

Because a woman believed that she held converse with the spirits of the dead, a great many people regarded her as mentally incompetent to dispose of her property by will. It is needless to say that those who would profit by a judicial decree declaring her mind too disordered to be trusted with the disposition of property were the most firmly convinced on this point. Yet there are thousands of people regularly transacting all kinds of business and moving in all walks of society who believe precisely the same thing that this woman believed.

Whether the belief is well-founded or a delusion is something that can no more be established by the ordinary processes of ascertaining facts in a court of law, than can the immortality of the soul, the Immaculate Conception or the existence of the Supreme Being.

However, the question of this woman's mental competency is simply preliminary to speaking of people who hold to far more ridiculous beliefs without incurring the imputation of insanity. Any number of intelligent men believe rheumatism is cured by carrying a raw potato in the pocket. Others are firmly convinced that warts can be driven away by conjuration. Still others treat diseases in horses and cattle with a form of incantation. There are hundreds of similar popular superstitions that seem absurd enough to those who disbelieve them.

No doubt many who believe in the raw potato cure for rheumatism regard people who believe they hold intercourse with the spirits of the dead as crazy, but in argument as well as in scientific demonstration the spiritualist would have the better of the debate. So far as scientific knowledge goes, it utterly discredits carrying a raw potato as a cure for rheumatism, while there is positive human testimony, however much we may discredit it, to the effect that spirits do converse with the living. As for negative proof there is none. Besides, if the souls of men live after death, what finite mind is to fix the bounds of their habitations or place limitations upon their movements?

It may be objected of course as inherently improbable that the wise and righteous who have gone before would indulge in the vapid, inconsequential twaddle usually represented as the sum of the knowledge the dead contribute to the living. But this is only presumptive evidence. If we call the belief in such communications insanity, what shall we say of the belief in the power of an unlettered boor to conjure away wars or whisper away the murrain in cattle? How much less in dignity or mental respectability is credence in the power of some dirty, illiterate fakir to foretell coming events or to divine knowledge not accessible to the ordinary human mind?

The truth is mankind is prone to superstitions, and has been since the race was in its infancy. This proneness is shown in the corruptions that engraft themselves upon the purity of every faith. What is gross superstition to one person is as true as Holy Writ to another. One man's orthodoxy is another man's heterodoxy. One man thinks his neighbor wrong in the head for holding to some other belief, yet he himself clings to some conceit equally wild and even more improbable. The conclusion to be drawn from this is that no man, however learned or experienced, is able to decide where mental responsibility begins and ends. We have alienists of all classes and degrees, but most of their learned gibberish is of no better quality than the mouthings of a negro voudooist over warts and corns. They are perpetually holding inquest over elusive shadows, dissecting the intangible and describing the anatomy of the unseen and unfelt. It is all like squaring the circle of the universe. We not only try to measure space with a foot-rule, but we assay and analyze and reduce it to parts, percentages and atoms. Man is a great humbug, and he is never so great a humbug as when he is trying to square his imperfect knowledge with the invisible and unknowable.

The Hon. Jim. Jones of Arkansaw, rises from the grave to remark that Grover Cleveland is impossible. Perhaps, but he is not quite as dead as the Hon. Jim. Jones.

## CLEVELAND AS A CANDIDATE.

As wild as the project seemed a few months ago, the suggestion that Grover Cleveland be again made the Democratic nominee is taking deep root and is being earnestly advocated. It is strongly favored by the New York Times, the Brooklyn Eagle, the Boston Herald, the Baltimore Sun, the Chicago Chronicle, the Philadelphia Ledger, the Galveston News, Atlanta Journal, and all the old line silk stocking conservative elements.

Senator Hanna has predicted that Cleveland will be nominated next year, and now comes Senator Scott of West Virginia declaring that the ex-President is the only Democrat who can give Roosevelt an "argument." Hanna and Scott are among the shrewdest political observers in the country, and they are in touch with powerful elements that make themselves felt in a thousand ways with scarcely a sound. Mr. Cleveland is potentially backed by forces operating in subterranean channels.

A serious page article in Puck, which has always been an admirer of Cleveland, gently warning him against being a candidate is only another evidence of the imminence of the ex-President's candidature.

It would seem that the popular prejudice against electing a President for a third term would be an insuperable obstacle to putting the Princeton sage in the field again, but all precedents are broken in time, and we have been breaking precedents at a rather rapid rate ever since Dewey destroyed the Spanish fleet in Manila bay. The revival of the Cleveland cult has set men to studying the anti-third term idea. Some popular conceptions have been discovered to be unfounded, but convincing the people of their mistake is another matter.

For instance, it is generally imagined that Washington declined to be a candidate for the third term because it would set a dangerous precedent. Washington did nothing of the kind. He declined because he had done his share in creating and establishing the American Republic and desired to lay down the cares of office and retire to private life. Instead of representing his declination as an act of abnegation, he apologized to his countrymen for refusing to serve them longer, pleaded his age, his health, his services and the demands of his private business. Nowhere did he give out the idea that a third term should not be given to another for reasons of public policy.

It was Thomas Jefferson that advocated the idea of a third term being dangerous to the peace of the country and the security of its institutions. While he planted himself on the precedent Washington created, he gave entirely different grounds from those offered by the Father of his country for declining a third term. Yet Jefferson, while declining a third term for himself, absolutely named his successor and also the next President to follow. Madison and Monroe owed their election to Jefferson, whose influence dominated their administrations. Jackson, following Jefferson's example, named Martin Van Buren as his successor, while shying at the third term. Thus the actions of Jefferson and Jackson were as different to the act of Washington as the reasons they gave for retiring from the Presidency.

But Jefferson made his objection to a third successive term. It was continuance in power that he deemed dangerous to the state. He considered an eight year continuous tenure as long as could safely be intrusted to any man. There is small distinction between the effect of a man continuing to hold office himself and selecting the man to hold it, but Jefferson's motives cannot be questioned because he never sought to magnify the Presidential office, but rather sought to curb its power and prerogatives.

But Jefferson's objections to a third term do not apply to Cleveland because he has not served two successive terms. He has served two terms, but there was an interval between. In the wholly improbable event of his re-election next year, he would not have two, let alone three successive terms to his credit.

But it is only a remote possibility for Cleveland to be elected again. While his virtues are many and his capacity large, he represents views and tendencies opposed to the best interests of the nation. His last administration was disastrous industrially and and financially. A large section of his party is implacably hostile to him. On the other hand, the Presidential chair is filled by a popular idol, a man who is in thorough accord with the hope and aspiration of the American people; who represents the policies which have made this country great and prosperous and who reprobates the tendency to turn the agencies of government to the sordid schemes of syndicated wealth.

## GIVES RELIEF QUICKLY.

**Regular Use of Hyomei Cures Most Stubborn Case of Catarrh.**

No other medicine gives such prompt relief as Hyomei in the treatment of catarrh.

The first breath of this remedy soothes and heals the irritated and smarting air passages, and the regular use for a few days or weeks will cure the most stubborn case. Some of the reports from those who have been cured of catarrh by Hyomei read like miracles.

John S. Gray of Richmond Hills, Pa., writes: "I am 82 years old and have been a sufferer with catarrh in the head for 15 or 20 years. I have doctored with many specialists and they all told me that the disease was incurable on account of my age. After using Hyomei a short time I was greatly benefitted and can now say that I am entirely cured. It has been six months since I stopped using the remedy and I still remain cured."

In nearly every town and village of the country can be found those who have been cured of catarrh by Hyomei. In Oakland there are probably over a thousand people whose health has been restored by this remarkable treatment.

Osgood Bros. have sold package after package and every one has been with their personal guarantee to refund the money if it did not cure. Only two outfits have been returned and in each instance the money was paid back without question.

You run no risk whatver in buying Hyomei and your word decides the question as to whether you pay for the remedy or not.

Can you afford to suffer longer with catarrh when you can buy a guaranteed treatment on this plan?

## SOME PASSING JESTS.

"Give the devil his due, my dear," he said.

"Well," replied the little wife, "it's hard to give you up, John, but—the will of Providence be done!"—Atlanta Constitution.

MODERN MUSIC.

"Let me write the songs of a nation and I care not who makes the laws," said the musical young man.

"Oh, I don't know," replied the practical young woman. "I guess there are about as many ragtime laws as there are ragtime songs."—Comfort.

TEMPORARY RELIEF.

With a hunted look in his eye the famous American ordered the guide to take him still deeper into the heart of the trackless forest.

"Why do you seek to travel so far away from the haunts of civilization?" asked one of the privileged members of the party.

"I am trying to dodge the college degrees!" he answered, with a dry sob.—Chicago Tribune.

A MATTER OF COLOR.

Poet—I can make no mistake in saying her cheeks were like the rose.

Friend—But you have never met her?

Poet—That matters not. If she is blushing there are red roses, if she is pale there are white roses and if she is sallow there are the yellow roses—Chicago News.

ELUSIVE SPRING.

I hark the bees, in mellow measure, hum
About the blossoms of the wilding plum;
I hear the warbler chant his golden stave,
Wave mounting skyward above wondrous wave;
I catch a riot of fair tones and tints;
I scent a wealth of balsams and of mints.
And yet, Spring's heart eludes her worshiper.
Lacking you, Love, Spring's sweet interpreter.
—Clinton Scollard in Smart Set.

CERTAINTY.

She knew that Love was dying—not so much
When Love's dear eyes seemed closed and blind to her
As when, with patient words and softest touch,
Love day by day, alas! grew kind to her!
—Charles Hanson Towne in Lippincott's.

VAGABONDS.

It's ho! it's ho! when haw-trees blow
Among the hills that Springtime thrill's;
When huckleberries, row on row,
Hang out their blossom bells of snow
Around the hills that music fills:
When haw-trees blow
Among the hills,
It's ho! it's ho! oh, let us go,
My love and I, where fancy wills.

It's hey! it's hey! when daisies sway
Among the meads where Summer speeds;
When ripeness bends each fruited spray,
And harvest wafts adown the day
The feathered seeds of golden weeds;
When daisies sway
Among the meads,
It's hey! it's hey! oh, let's away,
My heart and I, where longing leads.

It's aye! it's aye! when red leaves fly
And strew the ways where Autumn strays;
When 'round the chestnut, dropping, lie
The sturdy burs that, opening, dry,
And frost and haze turns golds to grays:
When red leaves fly
And strew the ways,
It's aye! it's aye! oh, let us hie,
My love and I where dreaming says.

Wassail! wassail! when snow and hail
Make white the lands where Winter stands;
When wild winds from the forests flail
The last red leaves, and in the gale
The trees wring hands in ghostly bands:
When snow and hail
Make white the lands,
Wassail! wassail! oh, let us trail,
My heart and I where love commands.
—Madison Cawein in the May Woman's Home Companion.

The death the other day of a great-grandson of Burns's "Souter Johnnie" did not snap the last living link with the poet, says the Scottish American. There is still living a great-grandson of Robert Burns himself, the poet's only direct and legitimate representative. He is Robert Burns Hutchinson, now a clerk in a Chicago office, and his descent from the poet is unquestioned. His mother, Sarah Bruns, was a daughter of Lieut-Col. James Glencairn Burns, the third son of Robert Burns and Jean Armour. Mr. Hutchinson, the only man in the world who can say that he is directly descended from Robert Burns, will be 48 this year. He was born in Cheltenham, but crossed the water in 1891, when he married Miss Mabel Burnand. Their little daughter, Dorothea Burns Hutchinson, is the next in the straight line which links our own time with that of Robert Burns.

# ARGUMENT BEGUN TODAY.

CASE OF MINNESOTA AGAINST NORTHERN SECURITIES CO. ON TRIAL.

ST. PAUL, June 5.—Arguments were begun today before United States Judge Lochran in the case of the State of Minnesota against the Northern Securities Company and the roads whose control is merged in the New Jersey corporation. The arguments are based on practically the same testimony as in the case against the merger by the Federal Government. The State's case, however, is on different grounds. The Federal case alleges a violation of the Federal Sherman anti-trust law. The State's case is brought under a provision of the Minnesota constitution, which specifically prohibits the construction of a parallel and competing line of railways. The arguments may last two or three days. Attorney-General Douglass opened the State's case and will be followed by George Wilson. The defense will then be heard. Attorneys George L. Young, M. D. Grover and C. W. Bunn will present the side of the Northern Securities and Northern Pacific Companies. M. D. Young will then close for the State.

The closing exercises of William Circle, Chautauqua Literary Scientifice Course were held on Monday evening at the home of Mrs. S. S. Morris. The program consisted of papers and talks reviewing the year's work, musical numbers, both instrumental and vocal and a very able talk on the subject, "Russia as a World Power," by W. Laird Hill, after which ice cream and cake were served. Miss Marie Olson and Mrs. Bigelow are the graduates of the 1903 class, having completed the four years' course with Williamson circle. This circle is now twenty three years old and the history of its origin, development and graduated members makes an interesting chapter in Chautauqua work. # FALLS AN INCH AN HOUR.

WATER HAS RECEDED FROM BUSINESS STREETS, LEAVING MUD AND SLIME.

TOPEKA, Kas., June 5.—The river today was nine feet below the highest recorded point, the water having fallen during the night at the rate of an inch an hour. The approaches to the Melan bridge on Kansas avenue were completed early today and a steady stream of people carrying shovels and brooms were soon on their way to North Topeka to clean their homes and stores. The water has receded from the main business streets for a distance of five blocks north of Gordon street and has left an accumulation of mud and slime that, in some cases, is piled three feet high along the fronts of stores and in many of the buildings. In spite of the most determined efforts the water company has been unable as yet to force the water out over the entire city.

## CLOTHIER MORAN BUYING IN NEW YORK

J. T. Moran, the well-known clothier, who, with his wife, has been in the East several weks, has been heard from. He went away on a business trip, during intervals of which he proposed to renew old and favorite acquaintances in that section of the country. Mr. Moran is now in New York City, having done New Orleans and Boston. He is selecting a choice stock of the latest style of goods for the ensuing seasons. He intends, before returning home, to pass some days in both Philadelphia and Washington. The pleasure of the stay of Mr. and Mrs. Moran in New York City was increased by the meeting there of Dr. J. P. Dunn of this city, who made a hurried run to the metropolis, after having attended, in Detroit, the sessions of the National Convention of Military Surgeons of the United States, which had also present a number of distinguished surgeons from the armies in the old world.

## MODERN WAREHOUSE.

F. F. Porter, the Eighth-street real estate broker, recently purchased a lot on Seventh street, near Linden, where he is erecting a modern, up-to-date warehouse. It is to be two and one-half stories in height and is to be so constructed that the largest vans can drive in and receive and discharge goods without being exposed to the weather. Mr. Porter says compartments will be arranged so that customers can have their furniture stored in rooms as much their own as if it were in their own homes. The building will be thirty-six feet wide, covered with iron and ready for occupancy about July 1.

## THE CHICAGO HOTEL STRIKE.

CHICAGO, June 5.—The strike of hotel and restaurant employes has spread to the Chicago Beach and the Grand Pacific and woman employed in the hotel was ordered out and every one from chambermaid to bellboy obeyed the summons instantly. Great indignation followed among the guests, who include many prominent and wealthy Chicagoans. They voted to stand by the hotel management, and richly dressed women, changing their dresses for more common ones, cleared tables and washed dishes.

The strike at the Grand Pacific Hotel was not so general. The waiters, waitresses, cooks, bartenders and porters were ordered out, but it is expected that the rest of the employes will follow them today.

Following in the wake of the order issued by Mayor Olney that the streets should be kept clean the police yesterday arrested at different times J. B. Taylor, Frank Goodwin and Samuel Hawkins for violating the ordinance that prohibits the dumping of dirt or refuse on the public streets. The trio are teamsters and were hauling dirt from an excavation in wagons which allowed the dirt to drop on the streets.

In the Police Court each pleaded not guilty and will appear for trial June 11.

# STEAMER STILL FAST.

SIX TUGS ATTEMPT TO PULL DEUTSCHLAND OFF BUT FAIL.

NEW YORK, June 5.—The steamer Deutschland, which grounded yesterday in Gedneys Channel, is still fast. Six tugs worked on the liner at high tide about half past three o'clock this morning, but failed to move her. Another attempt will be made at high tide this afternoon.

The steamer has suffered no damage and as soon as she is floated will proceed on her voyage across the Atlantic. In the meantime she is in no danger although surrounded by a heavy mantle of smoke and fog. Blame is placed on the first-class passengers and their friends for the accident. Captain Barends in command of the ship, figured on crossing the bar at 3:30 o'clock this afternoon, but so many friends of the passengers crowded the vessel that she was late in getting away. In the interval the smoke has settled over the harbor and bay and the big liner had to crawl slowly on her way out to the open sea. She was under a slow bell when she struck and the engines were reversed, but despite this she hurried fully half her length in the muck. Communication is established with the Marconi system at Fire Island and from there news was sent to the New York agent.

# ARMOUR'S MEN GO ON A STRIKE.

CHICAGO, June 5.—Dissatisfied with the wage scale, 300 men belonging to a loading gang of Armour and Company's plant at the stockyards, have gone on strike. A wage scale was agreed upon last week and the men were working until last night, when they expressed dissatisfaction at the agreement. It is said that efforts will be made by the officers of the Packing Trades Council to persuade the men to return to work and fulfill their part of the agreement.

# REPORTED ILLNESS WAS EXAGGERATED.

LONDON, June 5.—It was reported today that the Marquis of Salisbury was seriously ill at the Hatfield House, his Hertfordshire estate, but inquiries showed that the report was exaggerated. According to the former premier's private secretary, Lord Salisbury had a chill during the night which occasioned some alarm but he was better this morning.

# BRIBE STORY IS NOT TRUE.

COMMISSION IN TORONTO DECIDES IMPORTANT CASE.

TORONTO, June 5.—The commission investigating the charges made by Mr. Gamey, the member of the Legislature who alleged that he had been approached by parties representing the Liberal Government and offered a bribe of $30,000 if he would vote with the Government, has made its report. In the opinion of the commission the charges "stand disproved by a great body of evidence which appears to be more accurate and creditable than that adduced in support thereof."

## CONSIDERING CHARGES.

WASHINGTON, June 5.—The Federal Grand Jury which has been considering the case of A. W. Machen, former superintendent of the free delivery service of the postoffice department, charged with accepting bribes in connection with department contracts, after being in session ten minutes this morning, retired to report to Criminal Court, No. 2, at 2 o'clock this afternoon.

It is understood that the Grand Jury will return a true bill against Machen.

## "AUNTIES."

**They Belong to the Whole Neighborhood.**

That dear old neighbor we know as "Aunty" and who lived down the street was no relation of course except that her tender old heart made her "Aunty" to all the young people. And how she did love the young mothers. One who remembers her says: "We could always depend on 'Aunty' for good sound advice. She was particularly well informed on food and what to use for certain troubles. After having taught in the public schools for years my health became so bad and I suffered frequently from indigestion. After my marriage I had indigestion so badly I became chronic. Owing to my condition my little baby did not get proper nourishment and was a very delicate child. I had about decided to put her on artificial food altogether when the advice of dear old 'Aunty' put baby and I on the right road.

"She insisted upon my trying Grape-Nuts food declaring that it would help me and give baby more nourishment, so to please her I did, trying it for breakfast. The result was so marked and so quick that I ate it for luncheon too and I must say the change has been wonderful. I have good health now and baby is a strong active child.

"My mother says that Grape-Nuts helps her more and keeps her more cheerful and happy than anything else she has ever taken. Truly, pure scientific food has great power." Name given by Postum Co., Battle Creek, Mich.

The housekeeper who reads the little recipe book in each package of Grape-Nuts is usually famous for her clever desserts.

## YOUNG GRADUATES RECEIVE THEIR DIPLOMAS.

### Commencement Exercises Are Held at High—Eloquent Address Made.

BERKELEY, June 5.—The graduating exercises of the Berkeley High School were held last night in Shattuck Hall, which was crowded with the friends of the outgoing students. On the platform sat the young candidates for diplomas, the boys in black, the girls in pretty white gowns. During the evening Yankes' orchestra filled in the program with musical selections.

Morris C. James, principal of the High School, presided, and after the prayer, during which every one in the house stood up, he introduced as speaker of the evening Fairfax H. Wheelan, who made an eloquent address to the young men and women who are about to enter upon the active work of life.

He said in part: "Well may we rejoice at the intimate connection that exists between the home and the school in this country. This connection, this vital interest of the one for the other, is what makes the United States the foremost nation of the earth. It is what gives to democracy its meaning for humanity, and it is for us to aid in making this meaning clear. The destiny of nations depends more upon their people than upon their governments. In looking back and reviewing the realm of history we are prone to think that those factors which led to the elevation of mankind had their origin and inception in a conflict and were ultimately realized upon a battlefield. This is not so. There were other sounds besides the roar of cannon, and the charge of battle, which arose after the shrieks of the wounded and dying had ceased. The sounds of industry, the bells of the church and of the school are these noises of life, not of death; noises of construction, not of destruction, are what have been the real cause of the uplifting of the race. The palace has been no workshop, the castle no laboratory. We owe more to home-spun than to scarlet and gold. The hammer has made more noise in the world than the cannon.

"To fulfill our duty we must be true to our school, our State, our Nation, and our God. We can best do this by developing all the qualities which we possess of mind and heart. While we have been shaping, we must now look to the blossoming of the flower. It is self-culture that we need. Striving, moral striving, intellectual striving, striving for the best in mind and heart is what will give us powers to be a factor in the history of the world."

The speaker then held up, as an example of what a self-made man can do, the life of Theodore Roosevelt, with whom he attended Harvard University. He said: "Theodore Roosevelt, morally, mentally, socially, politically, any way you may regard him, is a superior man. He is the best example of a self-made man I know of. When he entered college he was slim, narrow of shoulder, flat of chest, weighed scarcely 155 pounds, was no a writer and was a poor speaker. He possessed a vigor only in will and determination, and he left college a good writer, who was to give to the world a good quantity of high class literature, and to become a graceful, forceful and eloquent orator. This man, a product of that spirit of self-making, should be an inspiration to all of us. As he said at the Commencement exercises of the University of California on his last visit to the coast, when he was attended by soldiers and so forth, every child when he leaves school takes with him more than he has paid for. It is our duty to pay back this debt to the State which has so generously given it, in the form of good citizenship. The State does not ask it, but she demands it as a right."

## IRRIGATION EXPERIMENTS IN CALIFORNIA.

### Report Make on Work Done in Southern Part of State to Reclaim Waste Land.

BERKELEY, June 5.—Prof. Charles H. Shinn, inspector of stations for the Agricultural College of the University of California, has just returned from Chino Valley in Southern California, where experiments in irrigation have been carried on which will prove of almost inestimable value to the farmers of that desert and sparseley watered region. The work in that section has been carried on at two points in order that the experiments with water might be conducted in the two kinds of soil which are characteristic o the southern part of the State.

The work of tabulation and statistic shas been ably carried on by J. W. Mills, a former student at Berkeley. He has been helped during his service by successive patrons of wealth and unusual agricultural knowledge and interest. The especial demand made upon the sub-station was for more knowledge of all kinds of fruit culture, particularly decidud, but since the settlement of the valley and the development of great systems have compelled resort to pumping not only at the sub-stations generally throughout the district, the value of water has steadily increased, and its economical use has here become one of the leading agricultural problems.

The climate of the Chino Valley has a well deserved fame in Southern California, but the average annual rainfall for thirteen years is only a little more than 14 inches. The amount of water used to produce crops in the Chino Valley are, as a rule, extremely small. Owing to the high cost of water in that section the principle work of the experimenters has been to improve methods so as to reduce the waste as much as possible. Accordingly the rainfall and the irrigation have been accurately measured in gallons per acre for the different crops to do, away with any unnecessary use of that expensive necessity. It has been found that the citrus trees require only about three-tenths of the entire amount of water used.

The system of deep and shallow furrows were thoroughly tried and their results were interesting and most valuable. The absorbtion capacity of the two systems of furrows, deep and shallow, and the differences in the losses by evaporation were thoroughly determined, and it was found that the trees, irrigated by deep furrows, went twenty days longer, thus saving cost of extra water and labor, besides keeping in better condition.

The soil in between the furrows was probed daily during these experiments to determine the penetration of the water both sideways and downward. The climatic conditions were carefully observed and determination of the percentage of water in the soil at different depth before the irigation season began and after the last and heaviest irrigations were made.

These experiments have led to the gathering of most important statistics with regard to the economical use of the very limited water supply in the lower portion of the State, and the farming community have eagerly sought the results of the work done to successfully carry on agricultural pursuits in that barren region.

### FORESTRY FACULTY RECEIVES AN ADDITION.

He will give a lecture on the general features of forestry growth with a discussion of the causes of depletion, and a second lecture on methods of reforestation. His lectures will be richly illustrated with some two hundred slides illustrating actual forest conditions throughout Southern California.

They then cleared away the barricade and arrested the monks and a number of manifestants.

## RED MEN TO WINE AND DINE.

#### FRUITVALE IS DIVIDED GEOGRAPHICALLY ON ANNEXATION AND INCORPORATION.

FRUITVALE, June 5.—Wah Nee tribe No. 86, Improved Order of Red Men, will this evening be visited by the great chiefs of the nation. Senator Tyrell of Grass Valley, the great sachem and Porter L. Bliss of San Francisco, the great chief of the record keepers, will be among the honored guests. The local tribe will hold their annual election of officers, then the members will entertain their guests with an elaborate banquet. The affair is to be given in the Masonic hall on East Fourteenth street and Fruitvale avenue. John Bridge, sachem of the tribe, will act as master of ceremonies and toastmaster.

Ah Wah Nee tribe of Red Men was organized nearly eight years ago. It now has a membership roll of 70. Within the past few months the society has been growing very rapidly, 25 pale faces having been initiated since January 1.

### PICNIC FRIDAY.

The picnic of the pupils of the Dewey school was to have been given yesterday at Haywards park, but owing to the funeral of Trustee Walter Axtell, the affair did not take place. There was some talk of giving up the outing all together, but to this plan of course, a number were opposed. Preparations had been made for over 700 to attend, and special electric cars had been chartered to take the children to the picnic grounds at Haywards. Supplies have been ordered, prizes for the athletic games purchased, and everything is in readiness for the affair. It is proposed by many to give the excursion next Friday. The only objection seems to be that the school will be closed for the summer vacation by that time, and a number of the pupils will be away on their outings.

There seems to be some missunderstanding about the incorporation and annexation projects now on foot in Fruitvale. The town is divided on the subject, but the division has been made geographically, so there is little strife between the two factions. The promoters of both plans knew that neither would be carried if the whole town were included, so the matter was adjusted by dividing. The residents of Fruitvale district No. 2, which adjoins Oakland, will try to annex. Those living in district No. 1, east of Sausel creek will endeavor to incorporate, so all will be pleased if both plans succeed.

### PICNIC AT IDORA.

The teachers and pupils of the Lockwood school at Fitchburg held a picnic at Idora park, Oakland, today.

De Wilson; historian, L. C. Hawley; trustees, F. M. Smith, Theo. Grady and F. B. Heywood.

### POPE IN GOOD HEALTH.

ROME, June 5.—With regard to the reports that the Pope is ill, it is learned that the only trouble from which he is suffering is exhaustion due to fatigue as the result of the reception His Holiness has held since Easter, when persons were admitted in private audience to the number of many thousands. The Pope continues to receive the household officials, and yesterday held a conference with the cardinals regarding Manila, for which post there are three candidates, F. C. Rooker, formerly secretary of the delegation at Washington; Father J. J. Harty rector of St. Louis, and Rev. Thomas J. Hendrick of Rochester.

The last named was proposed by Cardinal Gibbons.

## SUBWAY NEARLY DONE.

#### PLANK WALLS ARE REINFORCED BY CONCRETE A FOOT THICK.

EMERYVILLE, June 5.—The force of men who have been at work on the concrete floor of the subway, east of the Southern Pacific tracks, have finished their task and now teams and carts are hauling away the dirt which is being excavated under the tracks and up to the water's edge. The entire floor of the subway on the shore side has been covered with concrete to the depth of two feet and the plank sides have been reinforced with a thick concrete and cement wall about a foot thick. The other end of the subway is to be treated in the same way as soon as the dredger is through with the excavating. On that side the walls will be thicker and heavier to withstand the seas.

### NEARLY DONE.

The subway is much nearer completion than it seems to be. All that remains to be done on the shore end is to grade the bottom under the Southern Pacific tracks and lay the concrete and the large body of water standing on the other side precludes a view of the progress made with the dredger. The big machine is now near land again and it will not be long before the work is completed and ready for the concrete.

### HEAVY FEED WIRES.

At the power house workmen are putting up large inch and a quarter cables which will carry the current, or juice as it is commonly called, from the dynamos to the wires. These cables will be six in number. The work of setting up the machinery has been commenced, although much cannot be done until the building is completed, which will be in the course of a few days. Fast progress is being made with the roof.

The thermometer is getting high, but then it must be remembered that it brings along the sweet girl graduate and the summer girl. — Baltimore American.

#### ENTRE NOUS CLUB WILL GIVE A DANCE IN THE NEAR FUTURE.

GOLDEN GATE, June 5.—The Entre Nous Social Club, which is composed of Golden Gate's leading society girls, met Wednesday evening and decided to give a dance in Klinkner's Hall on the evening of June 16th. The affair will be strictly invitational and it is sure to be a grand success. The club's last dance, which was given about two months ago, was one of the most successful social affairs ever held in Golden Gate.

### IMPROVING SIDEWALK.

A force of men are at work on the sidewalk on San Pablo avenue between Fifty-fourth and Fifty-fifth streets and it is a much needed improvement. Heretofore this particular piece of sidewalk has been covered with hills and valleys to say nothing of stray stumps here and there, making it an eyesore to say nothing of being disagreeable walking. The workmen are cutting out the stumps and reducing the stretch of land between the fence and the street to a decent graded sidewalk.

## STREET CAR MEN COMPLAIN.

#### DO NOT WANT TO WEAR HEAVY UNIFORMS IN WARM WEATHER.

ELMHURST, June 5.—As the weather begins to get warmer ordinary mortals are discarding their heavy winter clothing and putting on more comfortable summer attire. The motormen and conductors on the street cars, however, are obliged to wear their heavy uniforms, no matter how high the temperature may be. The coats are double-breasted, lined, and as heavy as reefers. The vests, too, are very thick. The men feel that, although the company is treating them very well in all other matters, yet it is rather hard on them to be obliged to keep on the heavy garments when they are so uncomfortable. Even though there is the usual cooling breeze to be felt on a moving car, yet often the sweat rolls off the men in great quantities whenever the day chances to be warm. The old company allowed the employes to remove their coats when the heat was oppressive. The car men think they ought to be allowed to resume the practice, or else wear lighter uniforms in the summer.

# GREAT DAMAGE BY HURRICANE.

MANILA, June 5.—A hurricane has swept over the Philippines and great damage has been done to shipping. The United States transport Shamsus is reported to have been wrecked. This, however, has not been confirmed. The United States steamer Pearla de Viscayas has been totally lost off Comtes Island. Part of the crew were saved.

The United States steamer Hamrafel and the steamship Mayflower have been driven ashore off Ormos, Weslyte, and will prove total losses. All on board were saved.

# FOREST FIRES IN ADIRONDACKS.

SARATOGA, N. Y., June 5.—The sun today is still obscured by dense smoke and ashes from the Adirondack forest fires. Reports which reached here today from the Catlin Lake region are that the fires covered a territory of fifteen miles in width and twenty miles in length and are still spreading despite the efforts of hundreds of fire fighters. The heat is so intense and the smoke so dense that the fighters cannot approach within two miles of the fires. Navigation in the Adirondack lakes is practically suspended. A steamer with a gang of fire fighters has been missing on Long Lake for three days.

The fires in the Cold River region cover twenty miles square.

# FLOODED RIVERS GO HIGHER.

ST. LOUIS, June 5.—The river this morning reached 33.5 feet, a rise of .5 foot during the past twenty-four hours. The crest of the flood, which is expected by Sunday, may be thirty-six feet and may go even higher, as the rivers north and west still pour in their quotas of water.

In North and South St. Louis the river is several miles wide. Along the front it is encroaching on buildings, making necessary the moving of household goods and business blocks.

# FIRE CAUSES HEAVY LOSS.

PHILADELPHIA, June 5.—Fire, which broke out early today in the building occupied by the Vega Dress Suit Case Company, Front and Arch streets, destroyed nearly $50,000 worth of property. Cunningham & Seals and F. A. Baxter's shirt factory were considerably damaged by smoke and water. The loss is covered by insurance.

# TWO BIG BLOCKS BURNED.

BUSINESS PORTION OF WISCONSIN TOWN WIPED OUT BY FIRE.

LA CROSSE, Wis., June 5.—The business portion of the town of New Lisbon was almost totally destroyed by fire early today and the loss is approximately $100,000. Two entire blocks of buildings were entirely destroyed. The fire started in Stinson Brothers and Company's store about midnight from an unknown cause. The city Fire Department, with only 200 feet of hose and a small chemical engine, was entirely unable to cope with the flames, and Muston and Tomah, nearby towns, were called upon for aid. Among the buildings destroyed were the Cash Department Store and Opera House block, the two largest in town.

# Special Notice

## To School Directors and Church Trustees

We can convince you that the burners sold by us for heating large plants are the most suitable for heating school houses and churches, if you will but see the practical demonstration.

Several of the largest hotels, hospitals and schools, now use these burners and will recommend them for heating plants of large public buildings and churches, lodge halls, school houses, etc. The California Oil Gas Company's Burners have no equal.

This is the proper season to put them in as our mechanics are not so rushed, as in winter. Testimonials on application.

### YOUTH GOES TO SEA INSTEAD OF TO JAIL.

The case of George Mate, the youth accused of stealing a horse, and who was charged with grand larceny, was called in the Police Court, but the boy did not answer to his name, for he is far out to sea on the good ship "Fanny Carson." Arrangements were made with the authorities and the captain of the ship whereby Mate might be shipped so as to avoid sending him to the penitentiary.

The case of Benny Boynton, who was arrested in company with Mate, and who is charged with the same offense, was also called in the Police Court, but continued until tomorrow, and in the meantime steps will be taken to have him shipped on some sea going vessel.

## KEEFE GOES TO SACRAMENTO.

### PHENOMENAL PITCHER WILL PLAY WITH THE SENATORS.

SAN JOSE, June 5.—Robert Keefe, the phenomenal pitcher of the Santa Clara College ball team, has signed with the Sacramento Pacific Coast League team. A number of the managers have been after Keefe, but he has steadfastly refused to listen to their offers. This week, however, he signed with Manager Fisher. Keefe's home is in Sacramento, but he has been at Santa Clara College for several years. As a member of the college team he has made a wonderful record as a pitcher. Last spring his pitching gave his team a victory over Stanford, shut out Berkeley 10 to 0 and defeated the Butte league team.

## CITY OF RICHMOND

THE COMING RAILROAD AND MANUFACTURING CITY OF THE PACIFIC COAST.

**SATURDAY, JUNE 6, 1903**

11 O'CLOCK A. M., ON THE GROUND.

Grand Excursion, leaving San Francisco day of sale at 10 A. M. Take Southern Pacific Broad Gauge Boat, foot of Market street, connecting with our special train at Oakland Mole. Special Train leaving Oakland Mole at 10:30; Sixteenth Street Depot, Oakland, at 10:35 A. M. Special Train returning at 4 P. M. Round-trip Ticket, 40 cents.

Scott's Regimental and Concert Band of 40 pieces accompanying the excursion. Lunch served upon the ground.

Will you read this? If not, you are the loser. We have advised you before and you have made money. Follow us this time and do so again.

Let every man and woman, married or single, in the State of California, if earning money, put aside $5 a month and buy a lot in the City of Richmond and double your money before the lot is paid for.

This is one of the grandest opportunities ever presented in this district to make money. Every lot sold will be sold at a price to enable the purchaser to make money.

1200 lots in the City of Richmond have been placed in our hands exclusively for sale. We are going to sell at auction 800 lots at prices unequaled in any other tract on the market, also upon terms so liberal that any one earning a salary can buy one or more lots.

There are today over 1000 people who have made investments in the City of Richmond in the past two years who can realize 100 per cent on the money they invested.

WE ARE GOING TO OFFER YOU NOW a better opportunity than those 1000 people had one year ago. Will you accept it? If not, you are the loser.

REMEMBER, every lot ready to build on; streets graded; electric lights; public schools; churches of every denomination; postoffice; newspaper offices; city water; electric cars and every convenience of a city at your front door; also steam railroad service to Oakland and San Francisco.

No other subdivision in the City of Richmond gives the same advantages.

With a deep-water front, where the largest ships that plow the ocean will discharge and load cargo at a depth of water 40 to 60 feet, which will afford dockage facilities for the deepest-draft vessels at any stage of the tide, and AT A POINT WHERE CAR AND SHIP WILL MEET, and with the great railways in the rear penetrating all the States of the Union, giving all the advantages of shipping facilities by rail and water not enjoyed by any other place in California, the City of Richmond is bound to take a foremost place.

Around the peninsula is being constructed a belt line railway connecting all the industries with both the Santa Fe and the Southern Pacific Railway systems.

The Santa Fe's terminal is here. Large brick railroad shops have been completed, and hundreds of men in the employ of this company will be kept here constantly.

The Southern Pacific has purchased lands for freight yards and railroad shops, and are building three wharves 160 feet wide by 1000 feet long, 360 feet apart, to accommodate the largest ships afloat and has a large force of men at work constructing freight terminal yards, with every facility to handle a large volume of business to all parts of the Orient and European countries, and for a barge line to San Francisco for local business. Their plans are very elaborate.

The electric car line from Oakland is now being built by the California Transit Company. Everything points to a wonderful development during the coming year.

Attend this Auction Sale and buy your lot from first hands and at bottom prices. If you don't buy and get in on the GROUND FLOOR you have no one but yourself to blame.

HERE IS A TOWN THAT IS GROWING INTO A CITY AS FAST AS MONEY AND THE RICHEST CORPORATIONS IN THE WORLD CAN MAKE THE TRANSFORMATION. A few years more and you will be telling your friends how foolish you were for not buying some property here when it could have been had for a song.

You should grasp the opportunity.

Remember these lots are just across the bay; same distance as Oakland.

THIS PROPERTY IS GRIDIRONED WITH RAILROADS. Bounded on the west by the Santa Fe Railroad, east by the Southern Pacific, south by the California and Nevada Railroad and north by the Oakland Transit Railroad, with station upon the tract.

Having all the available shipping facilities by rail, the cheapest fuel, deep, navigable waters, and being the only point where those great corporations meet, it has a basis for growth unsurpassed by any town in the State of California, and will be the greatest manufacturing city on the Pacific Coast.

EASY TERMS—ONLY $25 CASH AS FIRST PAYMENT, BALANCE AT $5 PER MONTH.

Do not fail to buy a lot; you will double your money. Every lot remaining unsold after the day of sale will be advanced 10 per cent above the Auction Prices.

Parties in the interior desiring to purchase in this magnificent tract and cannot attend the sale in person, can remit to us the amount of first payment and the price they wish to pay, and we will select for them the choicest lot, in our opinion, and if dissatisfied after seeing the same can exchange for any other unsold lot in the tract and have the payments credited thereon.

The work is perfectly satisfactory in every respect. The carpets have been so thoroughly cleaned that it would be impossible to get a half teacupful of dust throughout the whole house.

They are also bright and restored in color, the pile raised. The upholstered furniture as bright and clean as the day it came from the store.

The mattresses are all that the most exacting housekeeper can desire.

You may count me among your satisfied customers who will take great pleasure in telling others of the comfort, speed and absolute cleanliness to be derived from having their homes cleaned by the new process, Compressed Air.

A. Yes, sir.
Q. How old is your baby?
A. It will be eight years old in November.
Q. Where is your husband?
A. I don't know where he is.
Q. How long since you have seen him?
A. Since I was divorced from him.

HER HUSBAND GONE.

Q. When was that?
A. Three years ago.
Q. What is his business?
A. He is a plumber and a gas fitter.
Q. Is he working in the city now?
A. I don't know where he is. He was working in the gas company I think.
Q. Any reason to believe he is working there now?
A. I don't know where he is, I don't know where he is, I have asked lots of people if they have found anything out about him.
Q. Did you ever go to the gas consumers' association?
A. No, sir. I would not go in there, a Mr. White up on Pine and Taylor, he told me that he got fired out of there for living with another woman. They found out he was not married to her.
Mr. Holland. Let's see, you lived in Los Angeles, didn't you?
A. No, sir.
Q. You never lived there?
A. No, sir.
Mr. Leach. Did you ever stop down there?
A. No, sir, I don't know where that is.
Mr. Holland. Did you ever live in Seattle?
A. No, sir.
Q. Or in Portland, Oregon?
A. No, sir.
Mr. Leach. How did you come here from the East?
A. My father paid my way on the ships, he paid $120 and sent me; he gave me $400 and a ticket.
Q. How did you come, across the Isthmus?
A. Yes, sir.
Q. He gave you $400?
A. He gave me $400 in my pocket and paid $120 for my fare.
Q. How long had you been here when you married Ross?
A. About three months.
Q. What is his first name?
A. My husband's name?
Q. Yes.
A. David.
Q. David Ross?
A. Yes, sir.
Q. You say you never saw Walkerez before January of this year?
A. Yes, sir.
Q. You are sure of that, are you?
A. Yes, sir.
Q. You never knew him at all before that?
A. No, sor.
Q. When you came up here what was it your intention to do here, Mrs. Ross?
A. How do you mean?
Q. When you came from Lathrop with Walkerez, what did you intend to do here?
A. Well, I was going to the hospital.
Q. Here in Oakland?
A. Either in Oakland or in the city.
Q. Did you have to have any operations performed?
A. Yes, sir, I have to have it. Dr. Moore says it has got to be done or I will die.
Q. Well, have you had any operations performed yet?
A. No, sir.
Q. Well, when you came up here, did you have to come up here to have operations performed?
A. Yes, sir.
Q. What did Walkerez come up here for?
A. I don't know.
Q. What did he say he came for?
A. He didn't say what he came for.
Q. What relations did you have with Walkerez when you left Lathrop?
A. Well, I told him I was going to the hospital. I says, "What are you going to do?" "Well," he says, "I can't stay here. I can't spent a dollar and a half each way to go back and forth to go see you or anything." I says, "I don't want you around me."

FOND OF HER.

Q. Did he profess to be fond of you before that?
A. Yes, sir.
Q. He told you he was fond of you, did he?
A. Yes, sir.
Q. Had you been intimate with him at all in Lathrop?
A. Oh, we met two or three times.
Q. What did he say when he got into the house at Mrs. Leroy's that night?
A. What he said to her?
Q. No. What did he say to you?
A. The first thing he says, "Did you make it all right?"
Q. What did you tell him?
A. I told him, "Yes." I says, "I would not be here if I didn't make it all right."
Q. When did he first suggest anything about killing Mrs. Leroy?
A. He never said one word to me what he was going to do. I never knew about the murder at all, it was done so quick I didn't know if I was alive or dead myself.
Q. Where did he have the hammer just before he struck her?
A. I don't know.

THE FATAL BLOW.

Q. Where did he hit her, from the top or back?
A. From the top. He went around, or just like going around the back part, and hit her right in the head.
Q. You saw him hit her, did you?
A. Yes, sir.
Q. If you saw him hit her why did you say a little while ago when you said you didn't know whether he hit her or whether she had fallen to sleep, or fallen off the chair?
A. It happened so quickly I thought maybe she fell. I saw the hammer come down on her head.
Q. Did it make much noise?
A. Yes sir, it shook the house.
Captain Peterson—What did she do?
A. Well, she just gasped for breath that is all.
Q. You saw her do that?
A. Yes, sir.
Q. How far were you from him at that time?
A. Well, about from here to that washstand there.
Q. Seven or eight feet. Ten feet?
A. About that much.
Q. What is the first thing he said after he hit her?
A. He told me to come help him out. I told him I would not do it.
Q. What language did he use, what words did he use?
A. He said, "Hurry up, Babe. Get me something so she won't have any blood on the floor."
Q. Was there a carpet on the floor?
A. Yes, sir.
Q. Did he get any blood on the floor?
A. Yes sir.
Q. What did he do, wash that up?
A. He washed it, scoured it, scrubbed it.
Q. Right away?
A. Not exactly right away. He wanted to see her out of the way first.
Q. Did he use hot or cold water?
A. Cold water. There was no hot water in the house.
Q. Where did he get the water?
A. In the kitchen.
Q. Out of the tea kettle or out of the faucet?
A. He put it in a wash basin.
Q. What kind of a wash basin was it?
A. It was one of those.
Q. Porcelain or tin?
A. It was a blue wash basin.
Q. What did he wash it up with, a cloth, a towel or what?
A. No sir, he took a scrubbing brush and some sand soap, and scrubbed it up. And then he took an old waist that laid in the closet there and wiped it up after that.
Q. What did he do with the waist?
A. It is in the closet there yet, I guess, I don't know where it is.
Q.—You didn't see it again?
A. No sir.
Q. What became of the towels that he wrapped around her head?
A. I guess they are around there yet.
Q. You didn't see him take them off?
A. No sir. There was a red apron on her too.

ROPE AROUND NECK.

Q. Did you see him wrap her up in the comforters?
A. Yes, sir.
Q. Did he tie the comforters around her?
A. Yes sir.
Q. What with?
A. Just with the ends, that is all.
Q. He didn't put any rope or anything around her?
A. There was a rope around her neck, that is all.
Q. There was no rope around the comforters?
A. No sir, he just tied it like anybody would send a big wash to the Chinaman.
Q. Could he pack her up or did he drag her up?
A. He dragged her up. He didn't pack her, she was too heavy.
Q. How old is Victor Walkerez?
A. About 23 or 24, something like that.
Q. Is he light or dark?
A. Well, he was—his face—pale is light, but he has got light hair.
Q. Regular negro hair?
A. No sir, it is not very kinky. It is not exactly a colored man; he is only a mulatto, say one-eighth colored blood in him.
Q. An Octaroon?
A. He looks like Spanish to me more than anything else.
Q. When you saw him there in the hospital on the 20th of May did he say anything about Mrs. Leroy.
A. No sir.
Q. Was anybody else there while you were talking to him?
A. No sir, there was lots of people there, but they could not hear what we were talking about.
Q.—Are those wards in the hospital separated by cloth curtains or partitions or anything like that?
A. No sir, there is about 32 or 45 beds in it.
Q. How far from you was the closest bed occupied?
A. Well, just so a chair and locker could stand there, they call them lockers.
Q. Did you make any outcry or anything when he took your money?
A. I didn't know it until after it was gone, he just reached under my pillow and took it.
Q. You had your money under your pillow, did you?
A. Yes, sir.

HE ROBBED HER.

Q. How much money did you have?
A. I had $20 in gold and $2 in silver.
Q. And he took the $20 gold piece, did he?
A. Yes, sir.
Captain Peterson—How did you get that money from your mother, Mrs. Ross, by a postoffice order or how?
A. She sent it like a greenback.
Mr. Leach. Where did she address it?
A. Here in the main postoffice in the city. Can I have a drink of water please?
Captain Peterson—I will get you a drink.
Mr. Holland. Did you see him at all from the time he left? You say you left the house on the 8th of the month, or of May, did you see him between that and the 20th Annie?
A. No, sir.
Q. Between that and the 20th, the day you saw him in the hospital, is that the first time you saw him since you left the house?
A. Yes, sir.
Q. You haven't seen him since?
A. No sir.
Mr. Leach. Did he tell you he was going away or anything?
A. Yes, sir.
Mr. Holland. What did he do with the silverware?
A. Well, the knives and forks he gave to that saloon man.

ANOTHER WOMAN.

Q. Well, did the woman come over and stay at Mrs. Leroy's house for a while after he killed Mrs. Leroy?
A. She came up there; she took a whole lot of silk pieces for quilts and took a whole lot of clothes in a great big telescope basket and went over to the city. She even took Mrs. Leroy's little hand-satchel full of eggs and a chicken and towels.
Mr. Leach—She took those things, did she?
A. Yes, sir.
Q. How did she take them home?
A. Well, the telescope basket was put on the train in the baggage-car and she had a great big bouquet and satchel in her hands.
Q. She picked a bouquet out of the garden?
A. Yes, sir.
Q. Oh, did she sleep there that night?
A. She didn't sleep there; she was only there two or three hours.
Q. What did she say about Mrs. Leroy's death?
A. I told her, and she says to me, "Annie, that is a bad thing."
Mr. Holland—Annie, have you got the keys to the house out there?
A. Yes, sir.
Q. Where are they? Give them to me. (The witness reaches down in her stocking, takes out some keys and gives them to Detective Holland and Captain Peterson.)
Mr. Holland—Are those the keys to the front door?
Captain Peterson—Are all these keys that belong to the house?
A. No, sir, not all of them.

THE KEYS TO THE HOUSE.

Q. Who did this one belong to? Which is the key to the front door?
A. The front door does not open. That is the side door key; the front door can't be opened. This is the side door key, this one here.
Q. Where is that plain one, this one here; did he make that himself?
A. He filed that down; that belongs to that basement door that you went down to open.
Mr. Holland—Yes, I could not pick it.
A. And this one here belongs to that front part downstairs that is locked up.
Mr. Leach—Padlocks, was it?
A. No, sir, not exactly padlocks; yes, I think it is a padlock, too.
Q. Well, that one key will open the side door?
A. I think either one of those keys there belongs to the trunk; either one of those keys belongs to the trunk that he took away to pawn in the city. I think that key belongs to the organ.
Captain Peterson—Is there an organ in the house?
A. Yes, sir; I think so; I don't know.
Q. What is this top key?
A. No, sir, that is his hen-house key, and this one here, or this one here belongs to the padlock downstairs.
Mr. Leach—What is this key here?
A. I don't know, sir.
Q. Where did you get that?
A. I picked it up in the room.
Q. Did any of those keys belong to Walkerez?
A. No, sir.
Q. And these keys belong to Mrs. Leroy?
A. Yes, sir, I was in charge of the keys and everything.
Q. Is that your key-ring?
A. No, sir, that is Walkerez' key-ring; sometimes he would carry it, sometimes not.
Mr. Holland—Q. When did he give you these keys?
A. Well, let's see. Well, I am not sure, either of the time. I left him on the 20th. I don't remember.
Q. You don't remember whether it was on the 8th or the 20th?
A. No, sir.
Q. Who left the house last?
A. He did.
Q. He came back either the day before or Friday before you left?
A. No, sir, he stayed there altogether.
Q. Oh, he came back and stayed there every night?
A. Yes, sir.
Q. How did you come to leave; did you get sick and have to go to the hospital?
A. Yes, sir, I had to go to the hospital.
Q. Do you remember the day, Annie, you left the hospital?
A. No, sir; I have been rooming in this place at 328 Third street for a week.
Q. When was that week up?
A. Last Tuesday I paid my rent. I borrowed a dollar from her. She is holding my clothes. I told her I would pay her.

BORROWED MONEY.

Q. How much did you pay her?
A. I borrowed a dollar from her; I have got the money with me to pay her.
Q. How much have you got?
A. I have got enough to pay her.
Q. How much did you owe?
A. I only owe her a dollar.
Captain Peterson—Have you got any of Mrs. Leroy's things among your things, Annie?
A. Well, I took a change of underclothes out of the place, two waists, she gave me those; she gave me those and this waist that I have on.
Q. Have you anything else besides that belonging to her?
A. No, sir; it don't even belong to her because she gave them to me.
Mr. Leach—You had none of her trinkets or anything like that?
A. No, sir.

MISSING HAMMER.

Q. What became of the hand-satchel Mrs. Leroy had the money in that night?
A. I think it is in her room.
Q. Did you see her take the money out of her hand-satchel?
A. Yes, sir.
Q. Where did she put it?
A. She left it on the table and was reading the paper.
Q. It was on the table in front of her where she was reading the paper when Walkerez hit her?
A. Yes, sir.
Q. What did Walkerez do with the hammer after he hit her?
A. He put it in the closet some place, I don't know where he hid it.
Captain Peterson—What kind of a looking satchel was that?
A. It was a little black satchel.
Q. A little black hand-satchel, an old one?
A. Yes, sir, it was pretty old.

SOLD THE STUFF.

Mr. Leach—Did you ever see him sell or dispose of any of this stuff that he took from Mrs. Leroy's?
A. I saw him take a buggy out of the barn, and Mrs. Oliver Cephus went and helped him clean up the buggy. He sold it for $10.
Q. Was that before or after Mrs. Leroy was killed?
A. That was after she was killed.
Q. After you left the house did you see him sell anything?
A. No, sir.
Mr. Holland—Who did he sell the buggy to?
A. I don't know who it was.
Q. Whose buggy was it?
A. It was Mrs. Leroy's, it was a two-seated buggy.
Mr. Leach—Where was the man that he sold it to?
A. I don't know where he is at all.
Q. Was it a white man or a colored man?
A. A white man.
Mr. Holland—How many days was that after the killing that he sold the buggy?
A. It was the same day that Hattie was up there. It was the day after, or the next day, something like that.
Mr. Leach—He went over to the city that night and told Hattie to come over, did he?
A. Yes, sir.
Q. Did she come over the next day?
A. Yes, sir.
Q. That was the day he buried her in the afternoon?
A. She came over in the afternoon the day he buried her, yes, sir.
Captain Peterson—Did she take any stuff away with her?
A. Yes, sir, in a big telescope basket.
Mr. Holland—Some silks and things you say?
A. Silk pieces, pillow cases and sheets.
Mr. Kyte—Did she know the old lady was dead?
A. I told her, yes, sir.
Q. Did you tell her where she was?
A. I told her where she was.
Q. And that he done this thing?
A. Yes, sir.
Q. You told her where she was when she was buried?
A. Yes, sir.
Captain Peterson—That is this Hattie?
A. Yes, sir, I never did like her.

NO TROUBLE WITH HATTIE.

Mr. Leach—You never had any trouble with Hattie, did you?
A. No, sir.
Q. No open row.
A. No, sir.
Q. Mrs. Ross, did you ever see Walkerez after you left Mrs. Leroy's except that one night you met him in the grocery store and when you met him down in Crocket's. Did you see him any place else besides that
A. Not as I know of.
Q. You are sure about that, are you?
A. Yes, sir.
Q. Did you meet him in San Francisco between the time you went to the hospital and the time he went out there to see you?
A. No, sir.
Q. How did he know you were at the hospital.
A. I told him I was going there.
Q. When did you tell him that?
A. When I left the house.
Q. Well, you saw him after that; did you say anything to him about going to the hospital the night you stayed down to Crocket's?
A. I told Mrs. Crocket I was going to the hospital.
Q. How long did you stay at Crocket's?
A. One night.
Q. What time did you leave there the next day?
A. About noon.
Q. How did you know their name was Crocket?
A. She told me, and I heard her name mentioned there.
Mr. Kyte—You and he left Mrs. Crocket's together?
A. No, sir.
Q. Did you and he leave Mrs. Crocket's together?
A. Yes, sir.
Q. You went over to the city together?
A. No, sir, I went to a friend's.
Mr. Kyte—You both went to a friend's?
A. Yes, sir.
Mr. Leach—Where did you go to from there?
A. From there I went to the city and then to the hospital.
Q. Did he go to the city, too?
A. Yes, sir, and I left him down at the ferry.
Mr. Holland—How did you get into the hospital?
A. How?
Q. Yes.
A. I rode there, took a car.
Q. I mean did you have a permit?
A. No, sir, I went in and got a permit from the office; you don't have to have any permit to go to the hospital.
Q. Well, I didn't know that. Over here you would have to have four or else die in the street.
A. The day that he went down there with me before I went to the city.
Q. Is that the ticket he pawned the trunk with?
A. Yes, sir.
Mr. Kyte—Then you had gone to San Francisco with him if you saw him pawn the trunk
A. No, sir, I didn't see him. I didn't see him do anything; he told me that he pawned the trunk and that he got $8 for it. He wanted ten but he only got eight.
Mr. Leach—Did he tell you where he pawned it?
A. He said some place on Howard street, between Second and Third, I think it is.
Mr. Holland—Then that could not be the day, he could not have got the ticket that day, because the trunk didn't come there for a week after that, or pretty near two weeks after that. Was the trunk taken away from the house before you left there?
A. No, sir, after I left.

FIXING THE TIME.

Captain Peterson—Well, how do you fix the time about him getting the ticket when you went down there?
A. Well, he gave her the ticket. He says "Keep that for me."
Q. Yes, but that could not be the time you were with him, could it; it was not given for that trunk, because you left the house before the trunk was taken and you have never been back again, you say?
A. No, sir, I never went back to the house at all.
Mr. Leach. How many days after you left the house was it that you met Walkerez?
A. Oh, I don't know, I can't say that.
Q. Did you meet Walkerez at a friend's more than once?
A. Only once.
Q. Now, just think again and see if you can't recollect of seeing him any place else?
A. I was only twice in the store, I only met him there once.
Q. Here is the proposition. You say you have been living where your things are now for about a week?
A. Yes, sir.
Q. And you went to the hospital——?
A. I was up Tuesday.
Q. It is a week and nine days then since you went there?
A. Yes, sir.
Q. Then you were in the hospital how long?
A. From the 8th.
Q. From the 8th?
A. I stayed there until ——.
Q. Did you stay there continuously up to the time you took this room in San Francisco where your things are now? Or did you leave the house and come back, or did you stay there continuously?
A. I got a permit to go out and stay until 9 o'clock the next morning.
Q. Twice?
A. I went back and forth twice.
Q. Did you come over here on both of those occasions?
A. I was only once here, that is this time I stayed there one night.
Q. At Crocket's?
A. Yes, sir.
Q. How long was that after you went to the hospital?
A. Oh, I was there about two or three days.
Q. And that was about the 11th of May, was it?
A. Well, I could not tell you the date.
Q. Well, you left on Friday, the 8th, you say you had been there about three days twice?
A. Two or three days, something like that.

PAINTED NAME OUT.

Captain Peterson—Well, wasn't that the time you got the ticket?
A. I got the ticket the time I was over there.
Q. You remember seeing that trunk that day, seeing the name of Ferguson on it?
A. Yes, sir.
Q. He painted that name out, didn't he?
A. He told me he painted it black.
Q. Did you see him paint it?
A. No, sir.
Q. Now, didn't he take that trunk away from there before you left the house?
A. No, sir.
Q. Are you sure of that?
A. Yes, sir, I am sure of it.
Q. You are sure he took the trunk after you left?
A. Yes, sir.
Q. You are sure that you went to Crocket's before you went to the hospital?
A. No, sir, I had been in the hospital three or four days and then I went over here.
Q. That is the time you got the ticket?
A. I got my umbrella from a woman and he gave her the ticket then.
Q. Well, then, you didn't come back by 9 o'clock the next day, did you?
A. No, sir.
Q. What time did you come back?
A. About noon. I left there about noon; it takes about an hour on an hour and a half to get up there.
Q. Then you went right to the hospital, did you?
A. Yes, sir.

SHE HAS NO RINGS.

Mr. Holland—Well, Annie, have you got any rings belonging to the house?
A. No, sir, I ain't got anything at all except this waist that she gave me.
Q. Except the waist?
A. This waist here, she gave me that.
Mr. Leach—How long before she was killed did she give you that?
A. Well, she was killed on Tuesday night, and on Sunday she gave it to me.
Mr. Holland—The Sunday before?
A. Yes, sir, about two days before.
Mr. Leach—Did you wear it before she was killed?
A. Yes, sir, I wore it all day Sunday, because Mrs. ——— a lady by the name of Jones was coming there and I wanted to look kind of decent; my waist looked kind of shabby. I said "I want to get dressed up."
Q. Was Mrs. Jones there after the killing?
A. I haven't seen her at all.
Q. You haven't seen her at all since the killing?
A. No, sir.
Captain Peterson—How many people knew about this murder that you know of?
A. The only one I told was this Hattie.
Q. As far as you know that was all who knew about it?
A. I told her everything.
Q. You told everything to Hattie?
A. Yes, sir.
Q. Then all as far as you know are you, Walkerez and this Hattie Cochrane, they are the only ones you know of?
A. Yes, sir.

# MUST NOT DESPISE THE AMERICAN PRESS.

## Russian Editors Discuss Situation and Make Some Suggestions As to Policy.

ST. PETERSBURG, June 5.—The relations between the United States and Russia are much discussed here. The Novoe Vremya prints a signed leading article, headed "Russia and America," which says:

"The United States, from time to time, enters the arena of the anti-Russian propaganda, which finds favorable soil in its politically unripe population, without governmental traditions, and carried away by the successes of its new Imperialistic policy. The Siberian prisons, the Manchurian open door, the Kishineff disorders, all of these serve as a pretext for the anti-Russian meetings, so advantageous to Russia's enemies. While Secretary Hay's stubborn Anglophilism lends governmental importance to the claims of the various groups of American traders and missionaries in the Far East, our diplomatic agent's activity in America must take a different course from the diplomacy of Europe. We must create a party and explain our designs and position, not only to Mr. Hay, but to the people also, which is always the same. We must act through the American press, which, notwithstanding its defects, seems to be not only the mirror, but the leader of American public opinion."

The editor of the Syromatnikoff says:

"Thrice in America have been found hearty Russian sympathizers, but Russia remains dumb while the American papers are filled with all possible accusations against Russia, from English, German and Jewish sources. Count Cassini excellently defended our political interests, but he cannot undertake a newspaper controversy, so the accusations remain unanswered."

The article further complains that the American school histories contain nothing referring to the friendship shown by Russia to the United States at the foundation of and in the defense of the Union.

The editorial concludes:

"The Russian Foreign Office should publish in English a sketch of the relations between the Russian and American governments, beginning with the time of Catherine and ending with the Spanish-American war, from both diplomatic archives and American published records, and send the same to 3000 American papers. If a third of this number notice the book a sympathetic movement would be inaugurated in the cause. With its tremendous importance it is a great error to despise the American press in conducting our foreign affairs."

HERMIS

It cost E. R. Thomas, the racing man, just $60,000 to own Hermis, the wonderful 4-year-old, but the new owner of the high-priced horse is quite satisfied with his bargain and doesn't think that he got the worst of the deal. Above is a photographic reproduction showing the wonderful steed and the man who gave a fortune to buy him.

# GIVE THANKS TO THE PUBLIC.

### CITIZENS' RELIEF COMMITTEE OF KANSAS ISSUES A STATEMENT.

KANSAS CITY, June 5.—The citizens' general relief committee of Kansas City, Missouri, has issued a statement to the public giving thanks for sympathy and offers of aid and asking that assistance be sent to Kansas City, Kansas. The statement follows:

"As we decline, at this time to accept assistance from without, it is because we believe it our duty to meet the situation which confronts us to the fullest extent of our ability. The calamity which has come to us is no doubt great but it is not disaster.

"The bottom land, known among us as West Kansas City is the severest sufferer. The water has reached here a level of ten feet and there is every reason to fear that there has been great injury to the property of the poor and to the goods and possibly buildings of wholesale merchants and manufacturers. But until these districts are accessible and they will not be until possibly next Monday it is futile to estimate the damage and to many intelligent statements of the relief necessary.

"The immediate task of caring for the homeless and housing, clothing and providing for them is well in hand. There is no suffering unrelieved. The spirit of the people is splendid. The governments of the two cities have sanitation and policing well in hand and there are no disturbances; there is even no disorderliness. With the subsidence of the water there will be a resumption of business and industry will assume its customary sway. Whatever may be the loss of our merchants, they will bear it; we may find a greater destruction of the property of the working population than is now anticipated and if so we have to call for assistance from without but until such a situation shall develop we see no cause for asking assistance.

"It is proper, however, to state that Kansas City, Kansas, and the other neighboring towns in Kansas have suffered severely and while Kansas City, Missouri, generally came to their assistance we must not stand in the way of assistance to our neighbors from other sections of the country. To all those willing to assist these stricken towns we recommend that they address their offers to W. H. Craddock, Mayor of Kansas City, Kansas."

### FRANCE DECLARES HERSELF.

PARIS, June 5.—In the Chamber of Deputies yesterday, M. Firmin Faure (Nationalist) asked leave to interpellate the Governor on the subject of the measures taken for the security of Algeria. Premier Combes thereupon requested him to accept a simple declaration, which was, in effect, that the Government had determined to take vigorous steps that troops had been sent to chastise the guilty; that mere policing was sanctioned by the treaty with Morocco of 1845, and that there was no question of conquest or even of the temporary occupation of Moorish territory. This was closely understood by Morocco and also by the powers interested in maintaining the statu quo. M. Faurera replied that he regretted the steps had not been taken sooner, and then withdrew his interpellation.

# MILLIONS LOST BY FOREST FIRE.

### DEVASTATION IN THE GREAT LUMBER REGIONS OF NEW ENGLAND.

NEW YORK, June 5.—The forest fires in the Adirondacks and New England are spreading at an alarming rate and destroying millions in timber and hundreds of thousands of dollars' worth of summer cottages and camping resorts.

Fires are reported in Vermont, New Hampshire, Massachusetts, Connecticut and Maine. Long Island, to the east of here, has been swept for miles. Over this city and all the region around the smoke is so dense that the sun is obscured. The big ocean-going vessels felt their way in and out of the harbor or else remained at anchor to avoid collisions.

The situation is particularly grave. In spite of the efforts of the hundreds of men the fires are spreading. The most serious are now in the vicinity of Long Lake, east towards Newcomb Lake and Mount Marcy. Farther south of the city fires are raging along the Cedar river and at Indian Lake.

### RAISED LIBERAL SUM FOR INJURED BOILER MAKER

Very quietly the boys in the machine shop passed a subscription list among themselves for the benefit of Scott Piggott, the young boiler maker who lost his arm about two weeks ago as the result of an accident. There was scarcely an employe but who contributed a quarter at least and the very liberal sum of $125 was raised for Piggott. The latter had only been at the shop a couple of months, when the accident occurred and was in straitened circumstances. He is the sole support of his invalid mother and the benefit will be of material assistance to him.

### MOVEMENTS OF RULERS.

# WORK BEGUN ON NEW ROAD.

### CALIFORNIA NORTHWESTERN TO JOIN SAN FRANCISCO AND EUREKA.

The work of constructing the railroad line from Willits to Eureka has practically been commenced. The first contract, covering ten miles has been let and as soon as it is completed, another will be let for the balance of the distance.

Already a special train, consisting of twenty cars, loaded with plows, steam shovels, graders, scrapers, horses, mules and all other paraphernalia necessary to make a complete construction outfit, has gone to Willits where they will begin at the terminus there and build into Eureka.

Men are being recruited every day, in San Francisco, to work on the grading of the road and they are sent to the scene of the labor just as fast as they are engaged. The name of the company which is building the road is the San Francisco and Eureka Railroad and it recently purchased the property from the California Northwestern.

The California Northwestern was incorporated to go to Willits and can go no further, and for this reason it was necessary to organize another company in order to continue the road into the county seat of Humboldt. The road will connect with the one now running from Eureka to Scotia, a small town about thirty miles south. The work of grading and construction will be rushed as fast as possible. The intention is to build the line before the surveying parties of the Santa Fe people decide upon a route for their line. There are now three surveying parties at work between San Francisco and Eureka for the Santa Fe Company, but as yet they have not selected any route.

### NOTES AND PERSONALS GATHERED ABOUT THE YARDS.

Paul Gillet has decided to resign from the machine shop and go into business for himself.

E. Symmes, one of the draughtsmen of Foreman Hall's crew, has gone to Livermore where he will spend a few days.

J. Robertson, accompanied by his wife and mother, left yesterday for a three weeks' visit to Ogden, Salt Lake and vicinity.

L. J. Sterling dropped a driving box on his foot yesterday and is now laid up for repairs.

Joe Pryall, head clerk of the motive power department, is planning to take a party of friends on a trip through Chinatown in San Francisco tonight. George James will be one of the guides.

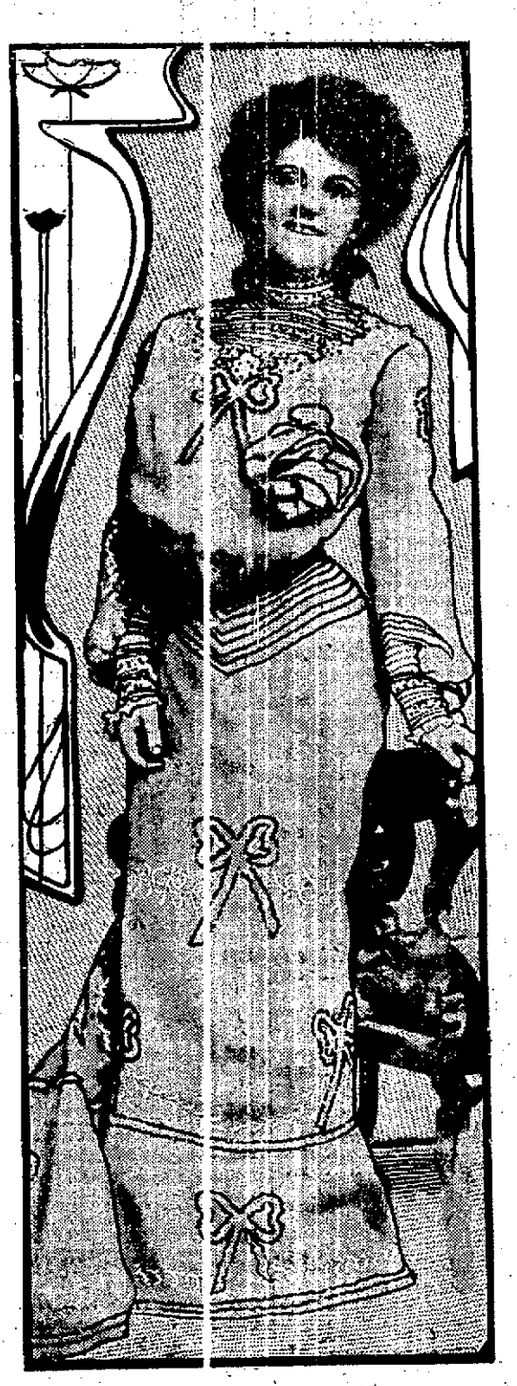
Henry Ammerman, an old time employe of the Southern Pacific Company and until recently employed on the truck gang at the car shops, died yesterday. He had been ailing for some time.

A large delegation from the machine shop attended the funeral of Henry Cripps who was accidentally killed in Berkeley.

The ferry steamer Berkeley has left the ways at Boole's shipyard and now has a pair of new propellors.

"Tiny" Jones of the tool room, was absent yesterday. It is supposed that he is sick.

# NEW SICILIENNE GOWN.



Dainty costume of cream sicilienne, embroidered with garlands of white in silk, and having bow knots of black lace applied at intervals over the dress. Cordings of black silk finish and head the circular flounce, and outline the hip yoke, sleeves and yoke. The edge of waist round yoke is scalloped out and embroidered. Back of the cording on foot of skirt is a narrow band of cream haircloth, faced with silk, to set out the flare.

# MASKED MEN ROB A SALOON.

### TWO SUSPECTS ARE ARRESTED BY THE LOCAL POLICE OFFICERS.

Shortly before 11 o'clock last night the men in the saloon of Louis Morini, at 690 Market street, were held up and robbed by a masked man, who leveled a revolver at the barkeeper and ordered him to hand over the contents of the cash receiver, which amounted to $7. Morini's father-in-law, who was in the saloon, attempted to leave by the rear door to give the alarm. The robber turned on him and fired, but luckily it did not hit him. The mask, made from a cotton handkerchief, was found about fifty feet from the saloon. Tw suspects have been arrested.

### EMERSON ON WAR.

We surround ourselves always, according to our freedom and ability, with true images of ourselves in things, whether it be ships or books or cannons or churches.

The standing army, the arsenal, the camp and the gibbet do not appertain to man. They only serve as an index to show where man is now; what a bad, ungoverned temper he was; what an ugly neighbor he is; how his affections halt; how low his hope lies.

He who loves the bristle of bayonets only sees in their glitter what beforehand he feels in his heart. It is avarice and hatred; it is that quivering lip, that cold, hating eye, which built magazines and powder-houses.

It follows, of course, that the least change in the man will change his circumstances; the least enlargement of his ideas, the least mitigation of his feelings in respect to other men; if, for example, he could be inspired with a tender kindness to the souls of men, and should come to feel that every man was another self with whom he might come to join, as left hand works with right.

Every degree of the ascendancy of this feeling would cause the most striking changes of external things: the tents would be struck; the men-of-war would rot ashore; the arms rust; the cannon would become street posts; the pike a fisher's harpoon; the marching regiment would be a caravan of emigrants, peaceful pioneers at the fountains of the Wabash and the Missouri.

And so it must and will be: bayonet and sword must first retreat a little from their ostentatious prominence; then quite hide themselves, as the sheriff's halter does now, inviting the attendance only of relations and friends; and then, lastly, will be transferred to the museums of the curious as poisoning and torturing tools are at this day.

The wide expensive panama,
Which seems to be without a fla,
May be a fake—
'Tis said they make
A lot of them in Arkansas.

# FIND SUCCESSOR TO DR. HATCH.

### REV. WHITE OF SACRAMENTO CALLED TO BERKELEY FIRST CONGREGATIONAL.

BERKELEY, June 5.—Following closely upon the resignation of Rev. George B. Hatch as pastor of the First Congregational Church, comes the announcement that his successor has been found in the perso nof Rev. William White of Sacramento. For twelve years, Rev. Hatch has acted as minister of the First Congregational Church, building it up from a small handfull to its present prosperous size. The man who is to take his place holds high rank among the divines of the Pacific coast. He will probably become the permanen trector.

### WILL BE NO STRIKE.

WILKESBARRE, Pa., June 5.—The danger of a strike seems to be already passing away, even before the decision of the convention of miners, which is to meet in Pottsville within the next ten days. This is due to the statement of coal companies' officials and superintendents that if the mine workers at their convention should re-elect the three district presidents as their representatives on the conciliation board by a majority vote there would be no further objection to their eligibility to serve on the board. This action will probably be taken at the coming convertion, as the leaders of the mine workers are not desirous of forcing the issue to a suspension of work unless they can find no other alternative.

### TO SHIP BANANAS.

KINGSTON, Jamaica, June 5.—Advices from Glascow, Scotland, announce the formation there of a company which intends to make large shipments of bananas for the nightly shipment by Leyland line steamers from Jamaica to New Orleans. An agent of the company is now securing the co-operation of planters here. Five vessels are being prepared for the new company, whose operations will commence in December.

### INCREASE IN WAGES.

CHICAGO, June 5.—Both the Illinois Central and Michigan Central Railroads have granted their freight handlers the same increase in wages as conceded by the Lake Shore & Michigan Southern and six other roads recently.

### A NEGRO LYNCHED.

GREENVILLE, Miss., June 5.—John Dennis, a negro, was taken from jail and lynched here last night by a mob of 100 men. The negro had attempted a criminal assault upon a well-known young white woman.

Fifth—Whether or not the applicant or applicants have had a permission or license for the sale of liquors in this city during any time preceding his or their present application, revoked.

The recommendation shall set forth: That the applicant or applicants are of good moral character and suitable to conduct such a place. Provided, however, that when there are not five citizens, occupying or owning real estate within a distance not exceeding one block, as provided for in this section, the Council may, upon the recommendation of three of its members, grant such permission.

The term "block" in this ordinance shall be construed as follows:

(c) Where the establishment to be licensed occupies a corner of the block or square on which it is located, the term "block" shall constitute each of the two frontages of the square or block thus occupied, and of which the property on which the applicant or applicants for permission is located constitutes a part.

(d) Where the establishment to be licensed occupies a part of either frontage in a block or square, then the term "block" shall constitute the frontage of which the premises thus occupied constitute a part, and the frontage facing the same in the block or square next adjacent and on the opposite side of the street.

SECTION 5.

No permission shall be granted under the provisions of this ordinance to any person, firm or corporation to sell such liquors, in any room or place where groceries, drugs or merchandise, other than tobacco and cigars, are sold at wholesale or retail, or in any room or place having any opening into or door connecting with premises where groceries, drugs or merchandise, other than tobacco and cigars, are sold at wholesale or retail.

SECTION 6.

Such applicant or applicants, shall, at the time of making application for permission to obtain a license, file with the City Clerk a bond in the penal sum of one thousand ($1000) dollars, with two or more sureties, who shall each be a resident of the City of Oakland, and shall each qualify in double the amount of the penal sum of the bond; said bond to be approved by the City Council and conditioned that the said applicant shall conduct the business for which the license is sought in a quiet, orderly and reputable manner, and will not permit any breach of the peace, or disturbance of the public order or decorum, by any tumultuous, riotous or disorderly conduct upon the premises, and shall not sell, give or furnish any intoxicating liquors, spirituous, malt or fermented liquor or wine, or any admixture thereof, to any person in the state of intoxication, or to any person under the age of 18 years; and that said applicant or applicants shall obey and abide by all laws and ordinances now in force and which may be hereafter enacted, regulating the time of closing saloons and places of business where spirituous, malt or fermented liquors or wines, or any admixture thereof, are sold. Said application and recommendation, after the approval of said bond, shall be immediately referred to the Municipal License Committee for investigation, who shall report the result thereof to the Council at the next regular meeting following. If said report be in favor of granting the permission to said applicant or applicants, the Council may, by resolution, grant the permission applied for, which permission shall remain in force not more than one year from the date of the same, and be good only for the person, firm or corporation and place named therein, and shall be filed with the Tax Collector.

SECTION 7.

The City Council shall hear petitions from residents of the ward in which an applicant or applicants are desirous of conducting such business, in addition to that of the applicant or applicants, in favor of or remonstrating against the granting of such permission, and in all cases shall decide impartially as to the necessity or needlessness of such permission, for the accommodation, peace or order of the public, according to the number, character and showing of the petitioners for and remonstrants against such permission.

Upon sufficient cause being shown or proof furnished to the said Council that any person, firm or corporation holding a license has violated any ordinance of the city relating to the sale of liquors, the City Council shall, upon notice being given to the person, firm or corporation so licensed, revoke such permission, cancel the license and declare the bond forfeited.

SECTION 8.

All licenses shall be paid for quarterly in advance in lawful money of the United States, and at the office of the Tax Collector of the City of Oakland, who is hereby authorized, empowered and required to collect all license taxes provided for by this ordinance; and he shall not issue the license herein provided for, except to such person, firm or corporation as shall have presented him the permission of the City Council to issue such license, and for such place named in the resolution granting the permission, and for this purpose the City Clerk shall furnish to such person, firm or corporation to whom permission shall be granted, a certified copy of the resolution granting such permission, and such permission must be in force and unrevoked at the time of issuing such license.

SECTION 9.

The keeping of a disorderly or disreputable house or place, or the selling or giving of any spirituous, malt or fermented liquor, or wine, or any admixture thereof, to any intoxicated person, or to any minor under the age of 18 years, or the violating of any of the provisions of this ordinance by any person, firm or corporation, hereby licensed, shall be deemed a misdemeanor, and on conviction thereof said conviction shall work a revocation and forfeiture of the license and permission obtained, as well as a forfeiture of the bond given under the said provisions, and no license shall thereafter be granted to such person, firm or corporation. The Council may, at any time for such cause as they or a majority of them upon investigation deem sufficient, revoke any permission granted under this ordinance, and it is especially ordained and declared that all such permissions, though granted for the nominal term of one year, are held at the pleasure of the Council.

SECTION 10.

Any person who shall violate any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall pay a fine not exceeding one hundred ($100) dollars, and in case such fine be not paid, such person may be imprisoned at the rate of one day for every two dollars of the fine so imposed.

SECTION 11.

All License Officers in the discharge of their official duties and all Regular Police Officers, shall have and exercise the following powers:

First—To make arrests for the violation of any of the provisions of this ordinance.

Second—To enter free of charge at any time any place of business for which a license is required, and provided, and to demand the exhibition of such license for the current quarter from any person, firm or corporation engaged or employed in the transaction of such business; and if such person, firm or corporation shall then and there fail to exhibit such license, such person, firm or corporation shall be liable to the penalty provided for in Section 10 of this ordinance; and it is hereby made the duty of all Police and License Officers to cause complaints to be filed against all persons, firms or corporations violating any of the provisions of this ordinance.

SECTION 12.

It shall be the duty of the Chief of Police to make returns and file the same with the City Clerk on the first Monday in each month, under oath, of all places in the city where vinous, spirituous, malt or fermented liquors or wines, or any admixture thereof, are kept for sale, or are sold, stating which of said places are licensed and which are unlicensed under this ordinance; and any failure to comply with this provision shall subject the Chief of Police to suspension or removal from office, and the Council may direct the Board of Police and Fire Commissioners to make such suspension or removal.

SECTION 13.

It shall be the duty of the Board of Police and Fire Commissioners to cause all places in the city where said liquors are sold to be visited at least once each month by the police, to ascertain whether any of the provisions of this or any other city ordinance relating to the sale of liquors has been violated, and whenever an officer shall learn of any violation it shall be his duty to make written returns of the same to the Board of Police and Fire Commissioners, with the names of the witnesses, and to do whatever shall be in his power to bring the offender or offenders to justice, and upon any neglect or refusal of such Police Officer to perform the aforesaid duty the Board of Police and Fire Commissioners shall immediately remove from the police force said officer, and said removal shall forever disqualify said officer from holding any position under the government of the City of Oakland.

SECTION 14.

The license tax under this ordinance shall be as follows:

For every person, firm or corporation engaged in the business of selling or giving away, or in any manner furnishing, in any saloon, bar, stand or other place of business, or in any public place in the City of Oakland; and for every person, firm or corporation who sells or offers to sell, or keeps for the purpose of sale, in the City of Oakland, any spirituous, malt or fermented liquors or wines, or any admixture thereof, one hundred ($100) dollars per quarter (three months) or portion thereof, in advance. Provided, that druggists and apothecaries on the payment of fifteen ($15) dollars per quarter (three months), or portion thereof in advance, shall have the right to furnish liquors upon the written prescription of a regular licensed and registered physician, such liquors in no case to be used or drank upon the premises, and to supply alcohol or preparations containing the same for scientific, mechanical or medical purposes. Provided further, that no spirituous, vinous or malt liquors shall be sold or furnished more than once on any one prescription of a physician and that no physician shall prescribe any intoxicating liquors as a beverage to a person of known intemperate habits.
